Dear Fellow NASDAQ OMX Stockholder:

We are pleased to enclose this year's proxy statement and to invite you to attend our 2013 annual meeting of stockholders. For your convenience, we will offer a live webcast of the annual meeting on our website at <http://ir.nasdaqomx.com/events.cfm>.

2013 is an important year for NASDAQ OMX, and we remain focused on our goal to be strategically positioned for strong, long-term performance. The following highlights elements of our corporate governance, stockholder engagement and executive compensation that are described in more detail in this proxy statement.

Corporate Governance

NASDAQ OMX's board of directors and nominating & governance committee continue to evaluate NASDAQ OMX's corporate governance practices. As discussed in Proposal IV, we are seeking stockholder approval to amend NASDAQ OMX's restated certificate of incorporation to remove and replace each supermajority voting requirement with a "majority of outstanding shares" voting requirement. We weighed the pros and cons of the supermajority voting requirements and ultimately decided that it is in the best interests of NASDAQ OMX and its stockholders to eliminate these requirements.

In addition, the board of directors, upon the recommendation of the nominating and governance committee, has approved amendments to our by-laws to allow stockholders holding 15% or more of our voting power to call a special meeting under certain circumstances. As described under "NASDAQ OMX's Corporate Governance," these amendments, as well as the proposed charter amendments discussed above, are subject to filing and effectiveness with the U.S. Securities and Exchange Commission. We believe both sets of amendments serve to enhance further NASDAQ OMX's corporate governance practices and demonstrate our responsiveness to stockholder concerns.

Stockholder Engagement

Stockholders are key participants in the governance of NASDAQ OMX, and investor feedback is extremely helpful in enabling us to achieve our mission. In 2012, management met with investors representing a substantial portion of our investor base to understand their perspectives. In addition, we invite stockholders to communicate directly with the board through the procedures outlined below in "Stockholder Communication with Directors."

Executive Compensation

On the executive compensation front, our program and policies are designed to emphasize pay for performance. NASDAQ OMX's performance was strong in 2012 against difficult market conditions. Several of our key financial results decreased as compared to 2011, largely due to lower industry trading volumes in the cash equity and derivative trading markets. As a result, none of the named executive officers received an increase in base salary, and on average, the annual performance-based cash incentive awards paid to our named executive officers decreased significantly from 2011.

At the same time, we are looking to the future, and we have implemented a new performance-based long-term incentive program for our CEO, executive vice presidents and senior vice presidents that focuses on total shareholder return over a three-year period. In 2012, equity awards to the named executive officers were granted under this program, and therefore, equity awards to our named executive officers are totally performance-based. As this demonstrates, we continue to look for ways to improve NASDAQ OMX's executive compensation program.

We are optimistic about NASDAQ OMX's strategy and long-term success. We look forward to sharing information with you about NASDAQ OMX at the annual meeting. Whether or not you plan to attend, we encourage you to vote your proxy as soon as possible so that your shares will be represented at the meeting.

The Board of Directors of The NASDAQ OMX Group, Inc.

Total cash compensation does not include all of the elements of compensation that comprise "Total Compensation" as reported in the Summary Compensation Table. For additional information, see "Compensation Discussion and Analysis" on page 34 and "Executive Compensation" on page 57.

Our proxy materials were made available at www.proxyvote.com on the date that we first mailed or delivered the notice of Internet availability. The notice also will tell you how to request our proxy materials in printed form or by e-mail, at no charge. THE ANNUAL MEETING

When and where is the meeting? The annual meeting is scheduled to be held at NASDAQ OMX's principal executive offices located at One Liberty Plaza, 50th Floor, New York, New York 10006, on May 22, 2013, at 9:00 a.m. (E.D.T.).

What is the purpose of the meeting? At the annual meeting, NASDAQ OMX's stockholders will be asked to consider and vote upon each of the following matters:

1. To elect 11 directors for a one-year term;
2. To ratify the appointment of Ernst & Young LLP as NASDAQ OMX's independent registered public accounting firm for the fiscal year ending December 31, 2013;
3. To approve the company's executive compensation on an advisory basis;
4. To approve an amendment of NASDAQ OMX's restated certificate of incorporation to remove and replace the supermajority voting requirements;
5. To approve an amendment and restatement of NASDAQ OMX's restated certificate of incorporation to make other non-substantive changes; and
6. To transact such other business as may properly come before the annual meeting or any adjournment or postponement of the meeting.

Who is entitled to vote? Only holders of record listed on the books of NASDAQ OMX at the close of business on April 2, 2013 (record date) of NASDAQ OMX's common stock, par value \$0.01 per share, will be entitled to notice of, and to vote at, the annual meeting. As of the record date, there were outstanding 165,763,497 shares of common stock.

A list of holders entitled to vote at the annual meeting will be available at the annual meeting and for at least 10 days prior to the annual meeting, between the hours of 9:00 a.m. and 5:00 p.m. (E.D.T.), at our principal executive offices, One Liberty Plaza, 50th Floor, New York, New York 10006. You may arrange to review this list by contacting NASDAQ OMX's corporate secretary, Joan C. Conley, The NASDAQ OMX Group, Inc., One Liberty Plaza, 50th Floor, New York, New York 10006, in writing or by email (corporatesecretary@nasdaqomx.com).

How many votes do I have? Each share of common stock has one vote, subject to the voting limitation in our restated certificate of incorporation that generally prohibits a stockholder from voting in excess of 5% of the total voting power of NASDAQ OMX.

Is my vote confidential? Your individual vote is confidential and will not be disclosed to third parties. Proxies, ballots and voting tabulations are handled on a confidential basis to protect your voting privacy. This information will not be displayed except as required by law.

What constitutes a quorum? The presence of the holders of a majority (greater than 50%) of the votes entitled to be cast at the meeting constitutes a quorum. Presence may be in person or by proxy. You will be considered part of the quorum if you submit a proxy by Internet, by telephone or by returning a signed and dated proxy card (if proxy materials are requested in printed form) or if you vote in person at the annual meeting. Abstentions and broker non-votes are counted as present and entitled to vote at the meeting for purposes of determining a quorum.

Who counts the votes? Broadridge Financial Solutions, Inc. tabulates the votes and acts as inspector of elections.

How do I vote? You can ensure that your NASDAQ OMX shares are voted at the meeting by:

- attending the meeting and voting in person, as discussed below;
- submitting your proxy by Internet (www.proxyvote.com) or telephone; or
- if you request a printed copy of proxy materials, completing, signing, dating and returning the proxy card in the envelope provided.

Proxy Submission by Internet. You have the option to submit a proxy for your shares through the Internet. The notice of Internet availability of proxy materials contains the website address (www.proxyvote.com) for Internet proxy submission. Internet proxy submission is available 24 hours a day until 11:59 p.m. (E.D.T.) on May 21, 2013. You must enter your control number, which is printed in the lower right hand corner of the notice of Internet availability, and you will be given the opportunity to confirm that your instructions have been properly recorded.

Proxy Submission by Telephone. You have the option to submit a proxy for your shares by telephone. The notice of Internet availability of proxy materials will have information about Internet proxy submission, but is not permitted to include a telephone number for submitting a proxy by phone because that would enable a stockholder to submit a proxy without first accessing the proxy materials.

The instructions for telephonic proxy submission are provided on the website where the proxy materials can be viewed. You will be provided with a telephone number for submitting your proxy at this site.

Alternatively, if you request paper copies of the proxy materials, your proxy card will list a toll-free telephone number that you may use to submit a proxy for your shares. Telephone proxy submission is available 24 hours a day until 11:59 p.m. (E.D.T.) on May 21, 2013. When you submit a proxy by telephone, you will be required to enter your control number. You will then receive easy-to-follow voice prompts allowing you to instruct the proxy holders how to vote your shares and to confirm that your instructions have been properly recorded. If you are located outside the United States or Canada, you should instruct the proxy holders how to vote your shares by Internet or by mail.

Proxy Submission by Mail. If you choose to submit a proxy by mail after requesting and receiving printed proxy materials, simply complete, sign and date your proxy card and return it in the postage-paid envelope provided.

How do I complete the proxy? The proxy provides that each stockholder may vote his or her NASDAQ OMX shares “For” or “Against” or “Abstain” for individual nominees and for each of the other proposals. Whichever method you select to transmit your instructions, the proxy holders will vote your shares as provided by those instructions. **IF YOU PROVIDE A PROXY WITHOUT SPECIFIC VOTING INSTRUCTIONS, YOUR NASDAQ OMX SHARES WILL BE VOTED BY THE PROXY HOLDERS “FOR” THE ELECTION OF THE DIRECTORS NAMED IN THIS PROXY STATEMENT AND “FOR” PROPOSALS II, III, IV and V.**

If your NASDAQ OMX shares are held by a broker, bank or other nominee that does not have express authority to vote on a particular matter, you will receive instructions from your nominee, which you must follow to have your NASDAQ OMX shares voted. The broker, bank or other nominee may vote only the NASDAQ OMX shares that it holds for you as provided by your instructions, subject to certain exceptions described below.

What do I need to do to attend the annual meeting? If you are a holder of record, you should indicate that you plan to attend the meeting when submitting your proxy. For the safety and comfort of our stockholders, admission to the annual meeting will be restricted to holders of record and beneficial owners of NASDAQ OMX shares as of the close of business on April 2, 2013. You will need to provide a valid, government-issued photo identification, such as a driver’s license or passport, to gain entry to the annual meeting. If you are a beneficial owner of NASDAQ OMX shares held by a bank, broker or other nominee, you also will need proof of ownership to be admitted to the meeting. A recent brokerage statement or letter from the bank, broker or other nominee are examples of proof of ownership. If you want to vote in person and your NASDAQ OMX shares are held by a bank, broker or other nominee, you will have to obtain a proxy, executed in your favor, from the holder of record. Directions to the annual meeting are available at <http://ir.nasdaqomx.com/annuals.cfm>.

Is there a webcast of the annual meeting? We will offer a live webcast of the annual meeting on our website at <http://ir.nasdaqomx.com/events.cfm>.

What are the board’s recommendations? The NASDAQ OMX board recommends that you vote “FOR” each of the nominees for director named in Proposal I and “FOR” Proposals II, III, IV and V.

What vote is required to elect each director? Our directors are elected by the holders of a majority of votes cast at any meeting for the election of directors at which a quorum is present and there is an uncontested election. Each of the 11 nominees must receive the affirmative vote of the holders of a majority of the votes cast for the election of directors to be duly elected to the board of directors in an uncontested election. Any shares not voted, for example by abstention or, if applicable, broker non-vote, will not impact the vote. Our by-laws and corporate governance guidelines require that, in an uncontested election, an incumbent director must submit an irrevocable resignation as a condition to his or her nomination for election. If an incumbent director fails to receive the requisite number of votes in an uncontested election, the irrevocable resignation becomes effective and such resignation will be considered by the nominating & governance committee. This committee will recommend to the full board whether or not to accept the resignation. The board is required to act on the recommendation and to disclose publicly its decision-making process with respect to the resignation. See “Proposal I: Election of Directors” and “NASDAQ OMX’s Corporate Governance” for full details of this policy. The 2013 election of directors is an uncontested election.

What vote is required to approve the other proposals? The following proposals require an affirmative vote of the holders of a majority of the votes present in person or represented by proxy at the meeting and entitled to vote on the matter. Abstentions have the effect of a vote against these proposals. Broker non-votes, if applicable, have no effect on these proposals.

- Ratification of appointment of Ernst & Young LLP; and
- Approval of the company's executive compensation on an advisory basis.

The stockholder vote to approve executive compensation is an advisory vote only and, therefore, the result of that vote will not be binding on our board of directors or management compensation committee. Our board and management compensation committee will, however, consider the outcome of the vote when evaluating our executive compensation program in the future.

The following proposals require the affirmative vote of the holders of at least 66 2/3% of the total voting power of NASDAQ OMX's outstanding shares of capital stock, voting together as a single class. Abstentions and broker non-votes have the effect of a vote against these proposals.

- Approval of an amendment of NASDAQ OMX's restated certificate of incorporation to remove and replace the supermajority voting requirements; and
- Approval of an amendment and restatement of NASDAQ OMX's restated certificate of incorporation to make other non-substantive changes.

The proposed changes to NASDAQ OMX's restated certificate of incorporation will not become effective until they are filed and effective with the SEC and the state of Delaware.

What is a broker non-vote? If you are a beneficial owner whose shares are held of record by a broker, you must instruct the broker how to vote your shares. If you do not provide voting instructions, your shares will not be voted on any proposal on which the broker does not have discretionary authority to vote. This is called a "broker non-vote." The ratification of the appointment of Ernst & Young LLP as our registered independent public accounting firm is considered a "routine" matter. Accordingly, brokers may vote shares on this proposal without your instructions, and there will be no broker non-votes with respect to this proposal. The other proposals are considered "non-routine," and brokers cannot vote shares on these proposals without your instructions.

If you hold your shares through a broker, it is important that you cast your vote if you want it to count on all of the matters to be considered at the annual meeting other than the ratification of the appointment of our independent registered public accounting firm. Thus, if you hold your shares in street name and you do not instruct your broker how to vote on these matters, no votes will be cast on your behalf.

What if other items come up at the annual meeting and I am not there to vote? We are not now aware of any matters to be presented at the annual meeting other than those described in this proxy statement. When you provide your voting instructions by Internet or telephone, or return a signed and dated proxy card, you give the proxy holders the discretionary authority to vote on your behalf on any other matter that is properly brought before the annual meeting. If the meeting is adjourned or postponed, your NASDAQ OMX shares may be voted by the proxy holders on the new meeting date, unless you have revoked your proxy instructions before that date.

Can I change my vote? You can change your vote by revoking your proxy at any time before it is exercised in one of three ways:

- Submit a later dated proxy (including a proxy submitted through the Internet, by telephone or by proxy card);

- Notify NASDAQ OMX's corporate secretary, Joan C. Conley, The NASDAQ OMX Group, Inc., One Liberty Plaza, 50th Floor, New York, New York 10006, in writing or by email (corporatesecretary@nasdaqomx.com), that you are revoking your proxy; or
- Vote in person at the annual meeting.

If you are a beneficial owner of NASDAQ OMX shares held by a bank, broker or other nominee, you will need to contact the bank, broker or other nominee to revoke your proxy.

When will the results of the voting be available? Votes will be tabulated by Broadridge Financial Solutions, Inc., the independent inspector of elections appointed for the meeting. Preliminary results will be announced at the meeting and, thereafter, final results will be reported in a current report on Form 8-K, which is expected to be filed with the SEC within four business days after the meeting.

Who is paying the costs of this proxy solicitation? We will pay the cost of soliciting proxies. Proxies may be solicited on our behalf by directors, officers or employees (who will not receive any additional compensation for these solicitations), in person or by telephone, electronic transmission and facsimile transmission. NASDAQ OMX will, upon request, reimburse brokers, banks and other nominees for their reasonable expenses in sending proxy materials to their beneficial owners/customers and obtaining their proxies. We have hired AST Phoenix Advisors Partners to assist in soliciting proxies at a fee of \$7,500 plus costs and expenses for these services. Your cooperation in promptly submitting your proxy through the Internet or by telephone, or, if proxy materials are requested by mail, by completing, signing, dating and returning the enclosed proxy card will help to avoid additional expense.

Does NASDAQ OMX have a practice of householding? In a further effort to reduce printing and postage fees for the meeting notice, NASDAQ OMX has adopted a practice approved by the SEC known as "householding." Under our practice, stockholders who have the same last name and address will receive one notice of Internet availability of proxy materials, unless one or more of these stockholders notifies us that he or she desires to continue to receive a separate copy of the proxy materials. Beneficial owners can request information about householding from their bank, broker or other nominee of record. If you would like to receive a separate copy of the proxy materials or, if you are a stockholder at a shared address to which we delivered multiple copies of proxy materials and you desire to receive one copy of proxy materials in the future, please contact the NASDAQ OMX Investor Relations Department, Attention: Edward Ditmire, One Liberty Plaza, 49th Floor, New York, New York 10006, in writing or by email (investor.relations@nasdaqomx.com).

PROPOSAL I

Election of Directors

The business and affairs of NASDAQ OMX are managed under the direction of our board of directors. Our directors have diverse backgrounds and experience and represent a broad spectrum of viewpoints.

Pursuant to our restated certificate of incorporation and by-laws and based on our governance needs, the board may determine the total number of directors. Currently, the board is authorized to have 11 directors.

Each of the current members of the board has been nominated by our nominating & governance committee and board of directors for re-election to a one-year term. All nominees have consented to be named in this proxy statement and to serve on the NASDAQ OMX board, if elected.

In an uncontested election, our directors are elected by a majority of votes cast at any meeting for the election of directors at which a quorum is present. This election is an uncontested election, and therefore, each of the 11 nominees must receive the affirmative vote of a majority of the votes cast to be duly elected to the board of directors. Any shares not voted by abstention and broker non-votes will not impact the vote. Our corporate governance guidelines require that, in an uncontested election, an incumbent director must submit an irrevocable resignation as a condition to his or her nomination for election. If an incumbent director fails to receive the requisite number of votes in an uncontested election, the irrevocable resignation becomes effective and such resignation will be considered by the nominating & governance committee. This committee will recommend to the full board whether or not to accept the resignation. The board is required to act on the recommendation and to disclose publicly its decision-making process with respect to the resignation. All the nominees have submitted the irrevocable resignation.

BOARD RESPONSIBILITIES

In addition to its general oversight of management, the board also performs a number of specific functions, including:

- Reviewing, approving and overseeing our corporate strategies and corporate actions including long-term strategic plans and evaluating the results;
- Reviewing, approving and overseeing fundamental financial information and reporting;
- Assessing major risks and reviewing options for their mitigation;
- Overseeing management's efforts to establish and maintain the highest legal, regulatory and ethical conduct of all businesses, including conformity with applicable global laws and regulations;
- Selecting, evaluating and approving the compensation of the Chief Executive Officer and other senior officers and overseeing succession planning for these executives;
- Evaluating the overall structure and effectiveness of the board, board members and committees and overseeing effective corporate governance;
- Providing advice and counsel to senior management; and
- Evaluating, selecting and recommending an appropriate slate of candidates to stockholders for election as directors.

SEPARATION OF ROLES OF CHAIRMAN AND CHIEF EXECUTIVE OFFICER

NASDAQ OMX separates the roles of chairman of the board and Chief Executive Officer. NASDAQ OMX believes that this separation of roles promotes more effective communication channels for the board to express its views on management. NASDAQ OMX's Chief Executive Officer, Robert Greifeld,

who has over twenty years' experience in the securities industry, is responsible for the strategic direction, day-to-day leadership and performance of NASDAQ OMX. The chairman of NASDAQ OMX's board, Börje E. Ekholm, who brings to the board the perspective of a large stockholder, provides guidance to the Chief Executive Officer, presides over meetings and executive sessions of the board of directors and serves as the primary liaison between the Chief Executive Officer and the other directors. We believe that this separation of roles and allocation of distinct responsibilities to each role facilitates communication between senior management and the full board of directors about issues such as corporate governance, management development, succession planning, executive compensation and company performance.

DIRECTOR CLASSIFICATIONS

In accordance with SEC requirements to ensure that balanced viewpoints are represented on our board of directors, NASDAQ OMX's by-laws require that all directors be classified as:

- Industry Directors;
- Non-Industry Directors, which are further classified as either Issuer Directors or Public Directors; or
- Staff Directors.

The number of Non-Industry Directors shall equal or exceed the number of Industry Directors. The board shall include at least two Public Directors and at least one, but no more than two, Issuer Directors. The board shall include no more than one Staff Director, unless the board consists of ten or more directors. In that case, the board shall include no more than two Staff Directors.

We establish the classification of each director based on a questionnaire with specific questions relating to the classifications. NASDAQ OMX's corporate secretary annually certifies to the nominating & governance committee the classification of each director. The following is a general description of NASDAQ OMX's director classifications, which are detailed in our by-laws:

- *Industry Director* means a director who is not a Staff Director and who (i) is, or within the last year was, or has an immediate family member who is, or within the last year was, a member of any of NASDAQ OMX's self-regulatory subsidiaries; (ii) is, or within the last year was, employed by a member or a member organization of any of NASDAQ OMX's self-regulatory subsidiaries; (iii) has an immediate family member who is, or within the last year was, an executive officer of a member or a member organization of any of NASDAQ OMX's self-regulatory subsidiaries; (iv) has within the last year received from any member or member organization of any of NASDAQ OMX's self-regulatory subsidiaries more than \$100,000 per year in direct compensation, or received from such members or member organizations in the aggregate an amount of direct compensation that in any one year is more than 10% of the director's annual gross compensation for such year, excluding in each case director and committee fees and pension or other forms of deferred compensation for prior service (provided such compensation is not contingent in any way on continued service); or (v) is affiliated, directly or indirectly, with a member or member organization of any of NASDAQ OMX's self-regulatory subsidiaries;
- *Non-Industry Director* means a director who is not a Staff Director and who is (i) a Public Director; (ii) an Issuer Director; or (iii) any other individual who would not be an Industry Director;
- *Issuer Director* means a director who is not a Staff Director and who is an officer or employee of an issuer of securities listed on a national securities exchange operated by any of NASDAQ OMX's self-regulatory subsidiaries, excluding any director who is a director of an issuer but is not also an officer or employee of the issuer;

- *Public Director* means a director who (i) is not an Industry Director; (ii) is not an Issuer Director; and (iii) has no material business relationship with a member or member organization of any of NASDAQ OMX's self-regulatory subsidiaries, NASDAQ OMX or its affiliates or FINRA; and
- *Staff Director* means an officer of NASDAQ OMX that is serving as a director.

DIRECTOR INDEPENDENCE

NASDAQ OMX's common stock is currently listed on The NASDAQ Stock Market and NASDAQ Dubai Limited (NASDAQ Dubai). The rules of The NASDAQ Stock Market require that a majority of the members of our board of directors be independent. NASDAQ Dubai requires that at least two directors be independent. In order to qualify as independent under the listing rules of The NASDAQ Stock Market, a director must satisfy a two-part test. First, the director must not fall into any of several categories that would automatically disqualify the director from being deemed independent. These categories prohibit the finding of independence for:

- a director who is, or at any time during the past three years was, employed by the company or by any parent or subsidiary of the company;
- a director who accepted, or who has a family member who accepted, certain compensation from the company in excess of \$120,000 during any period of 12 consecutive months within the three years preceding the determination of independence;
- a director who is a family member of an individual who is, or at any time during the past three years was, employed by the company as an executive officer;
- a director who is, or has a family member who is, a partner in, or a controlling stockholder or an executive officer of, any organization to which the company made, or from which the company received, certain payments for property or services in the current or any of the past three fiscal years that exceed 5% of the recipient's consolidated gross revenues for that year, or \$200,000, whichever is more;
- a director of the company who is, or has a family member who is, employed as an executive officer of another entity where at any time during the past three years any of the executive officers of the company serve on the compensation committee of such other entity; or
- a director who is, or has a family member who is, a current partner of the company's outside auditor, or was a partner or employee of the company's outside auditor who worked on the company's audit at any time during any of the past three years.

Second, no director qualifies as independent unless the board affirmatively determines that the director has no direct or indirect relationship with the company that would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. In assessing the independence of its members, the board examined the commercial, industrial, banking, consulting, legal, accounting, charitable and familial relationships of each member. The board's inquiry extended to both direct and indirect relationships with the company.

NASDAQ OMX also is listed on NASDAQ Dubai and, as a result, is subject to the NASDAQ Dubai listing rules and the Markets Rules of the Dubai Financial Services Authority. Under these rules, a director is considered independent if the board determines the director to be independent in character and judgment and to have no relationship or circumstances that are likely to affect, or could appear to affect, the director's judgment in a manner other than in the best interests of the company.

Based upon detailed written submissions by each individual, the board has determined that all of our current directors are independent, other than Messrs. Greifeld and Kazim. Mr. Greifeld is deemed not to be independent because he is the Chief Executive Officer of NASDAQ OMX. Mr. Kazim is deemed not to be independent because of his affiliations with Borse Dubai Limited (Borse Dubai), Dubai Financial Market PJSC (DFM) and NASDAQ Dubai.

INFORMATION WITH RESPECT TO DIRECTOR NOMINEES

In evaluating candidates for nomination to the board, the nominating & governance committee reviews the skills, qualifications, characteristics and experience desired for the board as a whole and for its individual members, with the objective of having a board that reflects diverse backgrounds and senior level experience in the areas of global business, finance, legal and regulatory, technology and marketing. Characteristics of all directors include integrity and values, high personal and professional ethics, sound business judgment, the ability and willingness to commit sufficient time to fulfill their board responsibilities and a commitment to representing the long-term interests of our stockholders.

In evaluating the suitability of individual board nominees, the nominating & governance committee takes into account many factors, including general and diverse understanding of the global economy, capital markets, finance and other disciplines relevant to the success of a large publicly-traded financial services company; a general understanding of NASDAQ OMX's business and technology; the individual's educational and professional background and personal accomplishments; and factors such as geographic, gender, age and ethnic diversity. The committee evaluates each individual candidate in the context of the board as a whole, with the objective of maintaining a group of directors that can further the success of NASDAQ OMX's business, while representing the interests of stockholders, employees and the communities in which the company operates. In determining whether to recommend a board member for re-election, the nominating & governance committee also considers the director's past attendance at meetings, participation in and contributions to the activities of the board and the most recent board self-assessment. The nominating & governance committee reviews all candidates in the same manner, regardless of the source of the recommendation.

We are obligated by the terms of a stockholders' agreement dated February 27, 2008 between NASDAQ OMX and Borse Dubai, as amended, to nominate and generally use best efforts to cause the election to the NASDAQ OMX board of one individual designated by Borse Dubai, subject to certain conditions. Mr. Kazim is the individual designated by Borse Dubai as its nominee.

Finally, we also are obligated by the terms of a stockholders' agreement dated December 16, 2010 between NASDAQ OMX and Investor AB to nominate and generally use best efforts to cause the election to the NASDAQ OMX board of one individual designated by Investor AB, subject to certain conditions. The information for each nominee includes the nominee's principal occupation, business experience, directorships of publicly-traded companies in the past five years, age as of the date of this proxy statement and the year the nominee was first elected a director. (1) The board did not appoint a deputy chairman for the compensation year beginning in May 2012.

(2) The executive committee chair does not receive any compensation for this chairmanship.

Each non-employee director may elect to receive the annual retainer in cash (payable in equal quarterly installments), equity or a combination of one-half in cash and one-half in equity. The annual equity award and any equity elected as part of the annual retainer are awarded automatically on the date of the annual meeting of stockholders immediately following election and appointment to the board. Equity vests in full one year from the date of grant. Equity paid to board members consists of restricted stock. The amount of equity to be awarded is calculated based on the closing market price of our common stock on the date of grant. Unvested equity is forfeited in certain circumstances upon termination of the director's service on the board of directors.

The payments to committee chairs and members of the audit and management compensation committees are made in cash in a lump sum in conjunction with our annual meeting of stockholders. Board and committee meeting fees are paid in arrears on a quarterly basis. Non-employee directors do not receive retirement, health or life insurance benefits. NASDAQ OMX provides each non-employee director with director and officer liability insurance coverage, as well as accidental death and dismemberment and travel insurance for and only when traveling on behalf of NASDAQ OMX.

STOCK OWNERSHIP GUIDELINES

Under our corporate governance guidelines, non-employee directors must maintain a minimum ownership level of three times the annual cash retainer in NASDAQ OMX common stock. All shares owned outright

and unvested restricted stock units are taken into consideration in determining compliance with these stock ownership guidelines. Exceptions to this policy may be necessary or appropriate in individual situations, and the board of directors may approve such exceptions from time to time. New directors have until four years after their initial election to the board to obtain the minimum ownership level. All of the directors who were required to be in compliance with the guidelines on December 31, 2012 were in compliance with the guidelines as of that date.

For information on the compensation received by Mr. Greifeld as an employee of the company, see “Compensation Discussion and Analysis” and “Executive Compensation.”
- (2) The differences in fees earned or paid in cash reported in this column largely reflect differences in each individual director’s election to receive the annual retainer in cash, restricted stock or a combination of cash and restricted stock. This election is made at the beginning of the board compensation year in May and applies throughout the year. In addition, the difference in fees earned or paid also reflects committee service and meeting attendance.
- (3) The amounts reported in this column reflect the grant date fair value of the stock awards computed in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 718, “Stock Compensation” (FASB ASC Topic 718). The assumptions used in the calculation of these amounts are included in footnote 12 to the company’s audited financial statements for the fiscal year ended December 31, 2012 included in our Form 10-K. The differences in the amounts reported among non-employee directors reflect differences in each individual director’s election to receive a portion of the annual retainer in cash or restricted stock.

- (4) These stock awards, which were awarded on May 22, 2012, represent the annual equity award and any portion of the annual retainer that the director elected to receive in equity. Each non-employee director received the annual equity award, which consisted of 5,153 units of restricted stock with a grant date fair value of \$115,015. Messrs. Included below are summary descriptions of the standing committees. Each committee has adopted a charter, which is available on NASDAQ OMX's website at <http://ir.nasdaqomx.com/nasdaq-omx-group.cfm>. The board and committees may hire outside experts to assist them when necessary.

Audit Committee. The audit committee, which is comprised of independent board members, has the primary responsibility for engaging the independent registered public accounting firm and assists the board by reviewing and discussing the quality and integrity of accounting, auditing and financial reporting and practices at NASDAQ OMX. In addition, the audit committee assists the board by reviewing the effectiveness of controls over NASDAQ OMX's risk management and regulatory program. The audit committee also assists the board in reviewing and discussing NASDAQ OMX's global ethics and compliance program and confidential whistleblower process.

The audit committee assists the board in reviewing and discussing our financial reporting process and reports to the board the results of these activities. This includes the systems of internal controls that management and the board of directors have established, our audit and compliance process and financial reporting. The audit committee, among other duties, engages the independent registered public accounting firm, pre-approves all audit and non-audit services provided by the independent public accounting firm, reviews with the independent public accounting firm the plans and results of the audit engagement, considers the compatibility of any non-audit services provided by the independent public accounting firm with the independence of such firm, reviews the independence of the independent public accounting firm and reviews and approves all related party transactions. Audit committee members must meet the independence standards applicable to audit committee members of companies listed on The NASDAQ Stock Market, and our board has concluded that each member of the audit committee satisfies these independence standards. Each member of the audit committee meets the standard for financial knowledge for audit committee members of companies listed on The NASDAQ Stock Market. In addition, the board of directors has determined that Dr. Markese and Ms. McColgan are each qualified as an audit committee financial expert within the meaning of SEC regulations and that each has accounting and related financial management expertise that meets the standard for “financial sophistication” set forth in the rules of The NASDAQ Stock Market.

Executive Committee. Subject to the limitations in our by-laws, the executive committee has the general power and authority of the board of directors to act in the management of our business and affairs.

Finance Committee. The finance committee advises the board of directors with respect to the oversight of our financial operations and conditions, including recommendations for our annual operating and capital budgets.

Management Compensation Committee. Among other duties, the management compensation committee establishes a compensation philosophy and reviews annually, and recommends to the full board of directors for approval all material changes to, compensation and benefit plans for officers and staff of the company. The management compensation committee reviews and refers to the board for approval the base salary, incentive compensation awards, performance goals and equity awards for the chief executive officer and all executive vice presidents. For other Section 16 officers, the management compensation committee reviews and approves the base salary, incentive compensation awards, performance goals and equity awards. The management compensation committee also reviews and approves the base salary and incentive compensation awards for other officers whose compensation exceeds certain thresholds, which currently are set at base compensation in excess of \$350,000 and/or total annual cash compensation (including targeted incentive compensation) in excess of \$650,000. In addition, the management compensation committee reviews and approves equity awards granted to other officers valued at \$100,000 or greater. Finally, the management compensation committee reviews annually the peer groups used for competitive market analysis and a succession plan for the development, retention and replacement of Section 16 officers and other selected officers.

Each member of the management compensation committee is independent, as required by the rules of The NASDAQ Stock Market, and meets the additional eligibility requirements set forth in NASDAQ Listing Rule 5605(d)(2)(A). Specifically, none of the members of the management compensation committee accepts directly or indirectly any consulting, advisory or other compensatory fee from NASDAQ OMX or any subsidiary. In addition, none of the members of the management compensation committee is affiliated with NASDAQ OMX, any subsidiary or any affiliate of a subsidiary in a way that would impair the director’s judgment as a member of the compensation committee.

Nominating & Governance Committee. Pursuant to NASDAQ OMX’s by-laws, this committee serves as the nominating committee with additional responsibilities related to corporate governance. The nominating & governance committee has the authority to identify and nominate candidates for vacancies on the NASDAQ OMX board. Additionally, if a director position becomes vacant because of death,

disability, disqualification, removal, resignation or increase in the number of directors, the nominating & governance committee will nominate, and the board of directors will elect by majority vote, a person satisfying the classification (Industry, Non-Industry, Issuer or Public Director) of the directorship, if applicable, to fill such vacancy, except that if the remaining term is not more than six months, no replacement is required.

The nominating & governance committee considers possible candidates suggested by board and committee members, industry groups, stockholders or senior management. In addition to submitting suggested nominees to the nominating & governance committee, a NASDAQ OMX stockholder may nominate a person for election as a director at NASDAQ OMX's annual meeting or at a special meeting, provided the stockholder follows the procedures specified in NASDAQ OMX's by-laws.

The nominating & governance committee annually evaluates and makes recommendations to the board on the overall effectiveness of the board through an annual review and evaluation of the structure, size, composition, development, selection and process of the board and its committees. The committee annually reviews and recommends to the board the assignment of board members to each of the board committees, including rotation, reassignment and removal of any committee member. The nominating & governance committee considers matters of corporate governance and periodically reviews, reassesses and recommends proposed changes for board approval of the following documents: the Board of Directors Duties and Obligations and the NASDAQ OMX Corporate Governance Guidelines (including the criteria used in selecting director nominees). Both documents are available on NASDAQ OMX's website at <http://ir.nasdaqomx.com/nasdaq-omx-group.cfm>.

This committee also monitors NASDAQ OMX compliance in the areas of corporate governance pursuant to The NASDAQ Stock Market LLC listing rules and best practices, in order to report and make recommendations to the board with respect to such requirements and practices. This committee identifies current and emerging corporate governance trends and issues that may affect the business operations, performance and public image of NASDAQ OMX. It prepares, and reports to the board the results of, the annual performance evaluation of the committee, which compares the performance of the committee with the requirements of the committee charter. Finally, the committee reviews, at least annually, its charter.

Each member of the nominating & governance committee is independent, as required by the rules of The NASDAQ Stock Market.

NASDAQ OMX BOARD'S RISK OVERSIGHT ROLE

NASDAQ OMX's management has day-to-day responsibility for: (i) identifying risks and assessing them in relation to NASDAQ OMX's strategies and objectives, (ii) implementing suitable risk mitigation plans, processes and controls and (iii) appropriately managing risks in a manner that serves the best interests of NASDAQ OMX, its stockholders and other stakeholders. NASDAQ OMX has a risk steering committee, comprised of employees, that regularly reviews risks for materiality and refers significant risks to the board of directors or specific board committees.

NASDAQ OMX's board of directors has ultimate responsibility for overseeing risk management with a focus on the most significant risks facing the company.

The board is assisted with this responsibility by the following board committees.

Audit Committee. The primary function of the audit committee is to assist the board of directors in fulfilling its oversight responsibilities by reviewing and discussing the financial information, the systems of internal controls, financial reporting and the legal and compliance process. Additionally, the committee reviews and discusses the Enterprise Risk Management (ERM) structure and process.

Finance Committee. The finance committee monitors the risks associated with the financial operations of the company.

Management Compensation Committee. The management compensation committee monitors the risks associated with elements of the compensation program, including organizational structure, compensation plans and goals, succession planning, organizational development and selection processes. The management compensation committee also evaluates and opines on the effect the compensation structure may have on risk-related decisions.

Nominating & Governance Committee. The nominating & governance committee oversees risks related to the company's governance structure, policies and processes.

Furthermore, non-management directors meet in executive session on a regular basis without the presence of management with discussions that include matters pertaining to risk. NASDAQ OMX does not believe that the board's role in risk oversight has affected its leadership structure.

RISK ASSESSMENT OF COMPENSATION PROGRAM

We monitor the risks associated with our compensation program on an ongoing basis. In March 2013, the management compensation committee and audit committee were presented with the results of an annual formal assessment of our employee compensation program in order to evaluate the risks arising from our compensation policies and practices. This risk assessment report reflected a comprehensive review and analysis of the components of our compensation program, including the performance measures established under the 2013 cash performance-based incentive award program and the sales plans for various business units. The management compensation committee and the audit committee each agreed with the report's findings that the risks associated with our compensation program were manageable and within our ability to effectively monitor, and that these risks are not reasonably likely to have a material adverse effect on the company.

The risk assessment was performed by an internal working group consisting of employees in the human resources, risk management, internal audit and corporate finance departments, as well as the offices of general counsel and corporate secretary. The findings were presented to the risk steering committee, which concurred with the working group's report. The risk assessment included the following steps:

- collection and review of existing NASDAQ OMX compensation policies and pay structures;
- development of a risk assessment scorecard, analysis approach and timeline;
- conduct of a qualitative risk assessment of performance goals to determine overall risk level; and
- review and evaluation of controls that might mitigate risk taking (e.g., equity vesting structure, incentive recoupment policy and stock ownership guidelines).

The audit and management compensation committees of our board of directors both concluded, based on the risk assessment report's findings, that any risks arising from our compensation program are not reasonably likely to have a material adverse effect on the company.

CORPORATE GOVERNANCE GUIDELINES

The NASDAQ OMX board has adopted corporate governance guidelines that set forth a flexible framework within which the board of directors and its committees operate. These guidelines cover a number of areas including the selection, composition and functions of our board, committee assignments and rotation, executive sessions, director orientation and continuing education, stock ownership guidelines for directors, evaluation of senior management and succession planning. Additionally, the guidelines set forth procedures in the event one or more nominees to the company's board do not receive the affirmative vote of a majority of the votes cast in an uncontested election.

If an incumbent director desires to become a nominee of the board, the incumbent director must submit an irrevocable resignation contingent on (i) the incumbent not receiving a majority of the votes cast in

an uncontested election and (ii) acceptance of that resignation by the board. If the incumbent director does not receive the affirmative vote of a majority of the votes cast, the nominating & governance committee will consider the resignation and recommend acceptance or rejection of the resignation to the board. The board will act on the resignation, taking the nominating & governance committee's recommendation into account, within 90 days following certification of the stockholder vote.

Thereafter, the board will promptly disclose its decision whether to accept or reject the director's resignation (and the reasons for rejecting the resignation, if applicable) in a press release to be disseminated in the manner that NASDAQ OMX's press releases typically are distributed.

Any incumbent director who fails to receive the votes required for re-election in an uncontested election and who tenders his or her resignation will remain active and engaged in board activities while the nominating & governance committee considers his or her resignation. However, the incumbent director is expected to voluntarily recuse himself or herself from participation in any proceedings or consideration by the nominating & governance committee or the board regarding the incumbent director.

CODE OF ETHICS

We also have adopted the NASDAQ OMX Code of Ethics, which is applicable to all of our employees, including the principal executive officer, the principal financial officer and the controller and principal accounting officer (senior executive and financial officers). We have a separate NASDAQ OMX Code of Conduct for the Board of Directors, which contains provisions specifically applicable to directors. We post amendments to or waivers from the NASDAQ OMX Code of Ethics (to the extent applicable to the senior executive and financial officers) or to the NASDAQ OMX Code of Conduct for the Board of Directors on our website at the location listed below. We also disclose amendments or waivers to the codes in any manner otherwise required by the standards applicable to companies listed on The NASDAQ Stock Market.

PROPOSED BY-LAW AMENDMENTS

At last year's annual meeting, our stockholders considered a stockholder proposal requesting that the board of directors amend our by-laws to enable stockholders to call a special meeting. While that proposal was not approved by stockholders, our nominating & governance committee and board of directors considered the feedback received from stockholders on the proposal and decided to respond to this feedback. Accordingly, the committee and board have approved proposed amendments to our by-laws to allow stockholders holding at least 15% of NASDAQ OMX's voting power to call a special meeting under the following circumstances.

- The stockholders calling the special meeting must be record holders and must have held a "net long position" equivalent to 15% of the outstanding common stock entitled to vote continuously for one year prior to the request to call a special meeting.

- Upon receipt of a stockholder request to call a special meeting, NASDAQ OMX's board of directors must set the meeting within 120 days.
- A special meeting request will not be valid if it relates to an item of business that is not a proper subject for stockholder action under applicable law.
- A special meeting request will not be valid if it is delivered: (i) within 90 days before an annual meeting; (ii) within 120 days after a meeting at which a similar item was considered; or (iii) when a similar item is to be presented at a meeting that has been called by NASDAQ OMX, but not yet held.
- To be in proper form, a special meeting request must include certain disclosures about the proposing stockholders, any proposed nominees for director and any proposed items of business to be brought before a meeting.

The proposed amendments to NASDAQ OMX's by-laws will not become effective until they are filed and effective with the SEC.

NASDAQ OMX BOARD ATTENDANCE AT MEETINGS OF STOCKHOLDERS

NASDAQ OMX's policy is to encourage all directors to attend annual and special meetings of our stockholders. Nine of the current members of NASDAQ OMX's board attended the annual meeting held on May 22, 2012.

PROPOSAL II

RATIFICATION OF THE APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The audit committee of the board of directors has selected Ernst & Young LLP as our independent registered public accounting firm to audit our financial statements for fiscal year 2013. We are asking the stockholders to ratify the audit committee's selection of Ernst & Young LLP to serve as our independent registered public accounting firm for fiscal year 2013. In the event the stockholders fail to ratify the selection of Ernst & Young LLP, the audit committee will reconsider this selection. Even if the selection of Ernst & Young LLP is ratified, the audit committee, in its discretion, may direct the selection of a different independent registered public accounting firm at any time during the year if the audit committee determines that such a change would be in the company's and its stockholders' best interests.

Ernst & Young LLP has audited NASDAQ OMX's financial statements since fiscal year 1986. Representatives of Ernst & Young LLP are expected to be present at the annual meeting with the opportunity to make a statement if they desire to do so, and are expected to be available to respond to appropriate questions.

The table below shows the amount of fees NASDAQ OMX paid to Ernst & Young LLP for fiscal years 2012 and 2011 (including expenses), which totaled \$6,987,765 and \$6,814,170 respectively. Details of the fees are based on the categories provided by the SEC auditor independence rules that became effective in 2003.

	2012	2011
Audit fees(1)	\$ 6,408,642	\$ 6,445,095
Audit-related fees(2)	389,000	95,000
Audit and audit-related fees	6,797,642	6,540,095
Tax fees(3)	3,200	3,450
All other fees(4)	186,923	270,625
Total(5)	\$ 6,987,765	\$ 6,814,170

- (1) Audit services were provided globally in 2012 and 2011, and the fees related to the audits of international subsidiaries are translated into U.S. dollars at the date of the pre-approval.
- (2) The 2012 and 2011 audit-related fees primarily include due diligence on strategic initiatives, including mergers and acquisitions.
- (3) The 2012 and 2011 tax fees relate to tax compliance services provided to certain of NASDAQ OMX's non-U.S. subsidiaries.
- (4) The 2012 and 2011 other fees primarily relate to Swedish Financial Supervisory Authority listing requirements for companies applying for a listing on NASDAQ OMX Stockholm AB. The validation of the company is required to be performed by an external accounting firm. The fees are collected from the listing company by NASDAQ OMX and paid to Ernst & Young LLP on behalf of the listing company.
- (5) Fees exclude services provided to NASDAQ OMX's non-profit entities and services provided in relation to NASDAQ OMX's role as the Securities Information Processor under the Unlisted Trading Privileges Plan.

Audit fees primarily represent fees for the audit of NASDAQ OMX's annual financial statements included in our annual report on Form 10-K, the review of NASDAQ OMX's quarterly reports on

Form 10-Q, statutory audits of subsidiaries as required by statutes and regulations, accounting consultations on matters addressed during the audit or interim reviews, comfort letters and consents, and internal control attestation and reporting requirements of Section 404 of the Sarbanes-Oxley Act of 2002. Audit-related fees primarily represent fees for consultations associated with strategic initiatives, including mergers and acquisitions.

Under the Sarbanes-Oxley Act, the audit committee is responsible for the appointment, compensation and oversight of the services provided by NASDAQ OMX's independent registered public accounting firm. The audit committee is required to pre-approve both audit and non-audit services performed by the independent registered public accounting firm, and NASDAQ OMX's audit committee pre-approved all such services in 2012 and 2011. See also "Audit Committee Report."

RECOMMENDATION OF THE BOARD OF DIRECTORS

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE "FOR" RATIFICATION OF THE APPOINTMENT OF ERNST & YOUNG LLP AS NASDAQ OMX'S INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR THE YEAR ENDED DECEMBER 31, 2013.

AUDIT COMMITTEE REPORT

In accordance with its written charter, the audit committee of the board of directors assists the board in fulfilling its responsibility for oversight of the quality and integrity of NASDAQ OMX's accounting, auditing, financial reporting practices and risk management. The audit committee also assists the board by reviewing and discussing the effectiveness of controls over NASDAQ OMX's regulatory and ERM structure and process. The audit committee also assists the board by reviewing and discussing NASDAQ OMX's global ethics and compliance program and confidential whistleblower process. The audit committee charter complies with the applicable provisions of the Sarbanes-Oxley Act of 2002 and related rules of the SEC and The NASDAQ Stock Market. The complete text of the charter is available on NASDAQ OMX's website at <http://ir.nasdaqomx.com/nasdaq-omx-group.cfm>.

Each of the audit committee members meets the independence criteria prescribed by applicable law and the rules of the SEC and is an "independent director" as defined in the rules of The NASDAQ Stock Market. Each of the audit committee members meets the financial knowledge requirements of The NASDAQ Stock Market, and Dr. Markese and Ms. McColgan have been designated by the board of directors as "audit committee financial experts" under SEC rules.

The audit committee obtained from the independent registered public accounting firm a formal written statement describing all relationships between the firm and NASDAQ OMX that might bear on the firm's independence, consistent with the applicable requirements of the Public Company Accounting Oversight Board. The audit committee discussed with the independent registered public accounting firm any relationships that may impact the firm's objectivity and independence and satisfied itself as to the firm's independence. The audit committee discussed and reviewed with the independent registered public accounting firm all communications required by generally accepted auditing standards, including those described in Statement on Auditing Standards No. 61, as amended, "Communication with Audit Committees" as adopted by the Public Company Accounting Oversight Board in Rule 3200T, and with and without management present, discussed and reviewed the results of the independent registered public accounting firm's examination of the financial statements. The audit committee also discussed the results of the internal audit examinations and ERM program results. The audit committee approved all audit and allowable non-audit services.

The audit committee discussed with management, the internal auditors and the independent registered public accounting firm the quality and adequacy of NASDAQ OMX's internal controls and the internal audit function's organization, responsibilities, budget and staffing. The audit committee reviewed with both the independent registered public accounting firm and the internal auditors their audit plans, audit scope and identification of audit risks. In addition, the audit committee reviewed and approved all related party transactions.

The audit committee reviewed and discussed NASDAQ OMX's audited financial statements as of and for the fiscal year ended December 31, 2012, with management and the independent registered public accounting firm. Management has the responsibility for the preparation of NASDAQ OMX's financial statements and the independent registered public accounting firm has the responsibility for the examination of those statements. Also, the audit committee completed its oversight of the global ethics and compliance program and confidential whistleblower process.

Based on the above-mentioned reviews and discussions, the audit committee recommended to the board of directors that the audited financial statements be included in NASDAQ OMX's annual report on Form 10-K for the fiscal year ended December 31, 2012 for filing with the SEC. The audit committee also recommended the reappointment, subject to stockholder ratification, of the independent registered public accounting firm and the board of directors concurred in such recommendation.

EXECUTIVE SUMMARY

2012 Business Highlights

NASDAQ OMX's performance was strong in 2012 against difficult market conditions. We achieved many operational, financial and transactional successes during the year. Operationally, we launched NASDAQ OMX BX Options, our third U.S. options market, and announced several new products in our Access Services and Market Data business units. We attracted significant listing transfers, announcing that companies with more than \$135 billion in market capitalization, including Kraft Foods, Texas Instruments, Goodyear Tire & Rubber and Analog Devices, switched their listing to The NASDAQ Stock Market. We also established an enterprise-wide operational excellence program to strengthen the way we develop, deploy and maintain technology products in the marketplace.

As part of our strategy of delivering strong returns to stockholders, we completed share repurchases totaling \$275 million, or 11.5 million shares, during 2012. We also returned \$65 million to our investors through the payment of quarterly cash dividends.

In connection with our continued efforts to expand and diversify our franchise, we announced an agreement with Thomson Reuters to acquire its Investor Relations, Public Relations and Multimedia Solutions businesses, as well as an agreement to acquire a 25% stake in The Order Machine. Both proposed acquisitions are subject to customary regulatory approvals. We closed the acquisitions of NOS Clearing ASA, a majority interest in Bwise Beheer B.V. and its subsidiaries, and the index business of Mergent, Inc., including Indxis.

We continued to diversify our revenue stream with an emphasis on our subscription and recurring revenues. Specifically:

- Issuer Services revenues increased \$19 million, primarily from Corporate Solutions and Global Index Group revenues;
- Access Services revenues increased \$16 million, primarily from increased demand for services and revenues from new products;
- Market Data revenues increased \$15 million, primarily from U.S. market data products; and

- Market Technology revenues increased \$7 million, primarily from delivery project and change request, advisory and broker surveillance revenues.

We also generated pre-tax savings of approximately \$60 million in 2012 from our restructuring actions, and we expect an annualized savings of \$60 million beginning in 2013.

On the other hand, the successes described above occurred against a backdrop of investors' cautious outlook about the pace of the global economic recovery and governments' ability to fund their sovereign debt. In 2012, both the U.S. and European cash equity trading and derivative trading and clearing businesses were negatively impacted by significantly lower industry trading volumes. In addition, the global IPO market in 2012 remained flat when compared to 2011. These factors negatively affected our financial results in 2012 as compared to 2011. For additional information on the economic and market considerations that influenced our 2012 financial results, please refer to "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations" included in our Form 10-K. In addition, we also experienced widely publicized systems issues in connection with the IPO by Facebook on May 18, 2012.

The table below summarizes key NASDAQ OMX financial results for the fiscal year ended December 31, 2012 when compared with the same period in 2011.

2012 Executive Compensation Highlights

In line with our executive compensation program's emphasis on pay for performance, compensation awarded to the named executive officers decreased on average in 2012 as compared to 2011. Listed below are some highlights of our 2012 executive compensation program.

Annual Base Salaries. For 2012, the base salaries of the named executive officers remained at the same levels as for 2011.

Annual Performance-Based Cash Incentive Awards. In 2012, the annual performance-based cash incentive awards for our named executive officers were tied to two corporate performance measures, operating income (run rate) and net revenue, as well as business unit strategic performance objectives and the results of a "business effectiveness survey" (BES). NASDAQ OMX's operating income (run rate) exceeded the target range, but fell below the maximum performance level, for this goal. Our 2012 net revenue exceeded the minimum performance level, but fell below the target range. These results influenced final payouts for each of our named executive officers under our annual performance-based cash incentive program. On average, final payments were significantly lower than 2011 levels based on 2012 performance.

Long-Term Stock-Based Compensation. In 2012, the management compensation committee and board of directors approved a new performance-based long-term incentive program for our CEO, executive vice presidents and senior vice presidents that focuses on total shareholder return (TSR). Each of our named executive officers received an equity award under this program in 2012. In addition, in early 2013, the committee and board determined the number of shares that our CEO was entitled to receive upon vesting in connection with his 2010 grant of performance share units (PSUs). Because the company exceeded the minimum, but fell below the target, performance level for non-GAAP earnings per share (EPS) growth over a three-year performance period from January 1, 2010 through December 31, 2012, Mr. Greifeld received a 95% payout of the target amount of PSUs awarded under his 2010 PSU grant.

New CEO Employment Agreement. As described further below, on February 22, 2012, NASDAQ OMX entered into a new employment agreement with Robert Greifeld, our CEO. The terms of the new agreement are similar in most respects to the terms of Mr. Greifeld's prior agreement. However, the new agreement eliminates a provision from Mr. Greifeld's prior employment agreement that provided, in limited circumstances, for a modified excise tax reimbursement with a gross-up payment.

Elimination of Share Recycling. In 2012, the committee amended and restated Section 4(a) of the NASDAQ OMX Equity Incentive Plan (Equity Plan) to eliminate a share recycling provision applicable to shares deliverable to participants but withheld by the company, by "net settlement" or otherwise, for the payment of taxes or exercise costs. As a result, shares used to pay taxes or exercise costs are no longer returned to the available share pool for future grants under the Equity Plan.

2013 Significant Executive Compensation Events

In early 2013, the committee and board adopted a policy prohibiting NASDAQ OMX's directors and Section 16 officers from hedging or pledging NASDAQ OMX's common stock. These individuals may not engage in securities transactions that allow them either to insulate themselves, or profit, from a decline in NASDAQ OMX's stock price (with the exception of selling shares outright). Specifically, these individuals may not enter into hedging transactions with respect to NASDAQ OMX's common stock, including short sales and transactions in derivative securities. Finally, these individuals may not pledge, hypothecate or otherwise encumber their shares of NASDAQ OMX common stock.

Executive Compensation Best Practices

Over the past several years, we have implemented several best practices to align with emerging market practices and stockholder expectations. Our executive compensation program is detailed over the next few pages; however, the following executive compensation practices are key aspects of our program.

- *Pay for Performance Philosophy.* The primary focus of NASDAQ OMX's executive compensation program is on pay for performance. As a result, a significant portion of compensation is performance-based and varies based on overall NASDAQ OMX performance.
- *Prohibition on Hedging and Pledging.* NASDAQ OMX does not allow directors or Section 16 officers to hedge the economic risk of their ownership of NASDAQ OMX common stock, or to pledge, hypothecate or otherwise encumber their shares of NASDAQ OMX common stock.
- *Stock Ownership Guidelines.* To align our executives with our stockholders, we have in place stock ownership guidelines. All of the named executive officers were in compliance with the guidelines as of December 31, 2012.
- *Stock Holding Requirement.* Our stock ownership guidelines encourage the CEO, CFO, executive vice presidents and senior vice presidents to hold specified dollar amounts of

stock grants until the stock ownership guidelines are met. Further, the guidelines require that these executives hold the specified dollar amounts of stock through the end of their employment with NASDAQ OMX.

- *Elimination of Share Recycling Provision.* As discussed above, the committee eliminated from the Equity Plan a share recycling provision. This change ensures that our stockholders are asked to approve the available shares for grant under the Equity Plan more frequently.
- *Frozen Pension Plan and SERP.* We do not accrue supplemental retirement benefits for our named executive officers. Our tax-qualified defined benefit pension plan (Pension Plan) and non-qualified supplemental executive retirement plan (SERP) have been frozen since 2007. Since then, no new participants may enter the Pension Plan or SERP, and no additional benefits may accrue under these plans.
- *Limited Severance Arrangements.* We are not obligated to pay severance or other enhanced benefits to any named executive officer upon termination of his or her employment, except as described below in the case of a change in control of the company and in certain circumstances under the employment agreements with Messrs. Greifeld and Jochumsen and the employment offer letter with Mr. Shavel.
- *“Double Trigger” Change In Control Agreements.* We do not pay severance benefits solely upon the occurrence of a change in control of the company. Rather, severance benefits are payable only upon a “double trigger,” which occurs if a named executive officer incurs a qualifying termination of employment following a change in control of the company.
- *Elimination of Tax Gross-Up Payments on Severance Arrangements.* We do not provide any tax gross-up payments on severance arrangements, and we do not intend to do so in the future.
- *Limited Perquisites.* Our executive compensation program includes very few perquisites for our executives. We do not provide tax gross-up payments on perquisites.
- *Incentive Recoupment Policy.* We maintain an incentive recoupment or “clawback” policy that allows the company to recoup incentive payments to the named executive officers and other executive vice presidents in certain circumstances. In addition, Mr. Greifeld’s employment agreement contains an incentive recoupment provision.
- *Limited Employment Agreements.* We typically provide an offer letter to executive officers upon hire or promotion noting that the executive is employed “at will.” Of our named executive officers, only Messrs. Greifeld and Jochumsen have employment agreements.
- *Engagement of Independent Compensation Consultant.* The management compensation committee engages an independent compensation consultant to assist the committee, as requested, in fulfilling various aspects of the committee’s charter. The independent compensation consultant reports directly to the committee, and not to management.
- *Extensive Risk Assessment of Compensation Program.* We monitor the risks associated with our compensation program on an ongoing basis. In addition, on an annual basis, the audit and management compensation committees of our board of directors are presented with the results of an assessment of our employee compensation program, including the performance goals set under the annual performance-based cash incentive plans, in order to evaluate the risks arising from our compensation policies and practices.

Approval of the Company’s Executive Compensation on an Advisory Basis

At our most recent annual meeting of stockholders, held on May 22, 2012, NASDAQ OMX conducted an advisory vote to approve the company’s executive compensation for the year ended December 31, 2011. Stockholders expressed substantial support for the compensation of our named executive officers, with approximately 97% of the votes present in person or represented by proxy at the meeting

and entitled to vote on the matter cast to approve the advisory vote. The committee took into account the results of this advisory vote when making compensation decisions through the remainder of 2012 and into early 2013. The committee also considered many other factors in evaluating our executive compensation programs, including the company's pay for performance philosophy and a competitive market analysis of peer companies. While each of these factors influenced the committee's recommendations regarding our named executive officers' compensation in 2012, the committee did not make any changes to our executive compensation program, policies and decisions as a result of the advisory vote.

Opportunity for Stockholder Feedback

The committee carefully considers feedback from NASDAQ OMX's regular engagement with our stockholders on executive compensation, corporate governance and other issues. The committee welcomes input from our stockholders on NASDAQ OMX's compensation program through the communication process discussed in "Stockholder Communication with Directors."

COMPENSATION PHILOSOPHY

The management compensation committee recognizes its important responsibilities to our stockholders. The committee has endeavored to create a performance-based compensation program that meets the needs of our global company and its stockholders.

On an annual basis, the committee reviews NASDAQ OMX's compensation philosophy, programs and practices. The following core principles reflect the committee's current compensation philosophy.

 - A significant portion of compensation is performance-based and varies based on NASDAQ OMX's performance, which enables participation in the short- and long-term growth and financial success of the company.
 - The program reinforces the importance of meeting and/or exceeding performance targets through superior awards for superior performance and through differentiated awards based on performance achieved.

- **NASDAQ OMX communicates its compensation objectives and program clearly.**
 - Ongoing employee educational programs ensure that the compensation objectives and program are well understood and serve as an effective motivational tool.
 - The value of total rewards is emphasized, versus only specific components of pay.
 - NASDAQ OMX ensures that its compensation program is straightforward and transparent so it is clear how organizational and individual actions translate into NASDAQ OMX performance and rewards.
 - NASDAQ OMX uses structured goal setting and achievement tracking.

DETERMINING EXECUTIVE COMPENSATION

Elements of Our Executive Compensation Program

The primary elements of our executive compensation program are:

- annual base salaries;
- annual performance-based cash incentive awards;
- long-term stock-based compensation (i.e., equity awards);
- retirement savings plans;
- limited severance arrangements;
- health and welfare benefits; and
- limited perquisites.

Role of Our CEO

Mr. Greifeld, our CEO, regularly attends management compensation committee meetings at the invitation of the committee. Mr. Greifeld provides his perspective to the committee regarding executive compensation matters generally and the specific performance of the executives reporting to him, as discussed above.

However, in accordance with the listing rules of The NASDAQ Stock Market, Mr. Greifeld does not vote on executive compensation matters or attend executive sessions of the committee or board, and Mr. Greifeld is not present when his own compensation is being discussed or approved.

Mr. Essa Kazim, NASDAQ OMX's other director who has been deemed by the board of directors not to be independent, also does not vote on executive compensation matters when such matters are considered by the board.

Role of Compensation Consultants

In early 2013, the management compensation committee engaged Exequity LLP, an outside, independent compensation consultant, to assist the committee, as requested, in fulfilling various aspects of the committee's charter. Exequity LLP is independent from NASDAQ OMX, has not provided any services to NASDAQ OMX other than to the committee, and receives compensation from NASDAQ OMX, as approved by the committee chair, only for services provided to the committee. Exequity LLP reports directly to the committee, and not to management.

In 2012, the management compensation committee engaged Frederic W. Cook & Co., Inc. (Cook & Co.), an outside, independent compensation consultant, to assist the committee, as requested, in fulfilling various aspects of the committee's charter. When requested by the committee, Cook & Co. reviewed committee materials and attended committee meetings and executive sessions. During its engagement, Cook & Co. was independent from NASDAQ OMX, did not provide any services to NASDAQ OMX other than to the committee, and received compensation from NASDAQ OMX, as approved by the committee chair, only for services provided to the committee. Cook & Co. reported directly to the committee, and not to management.

NASDAQ OMX's human resources department engages Meridian Compensation Partners to assist staff in gathering data, reviewing best practices and making recommendations to the committee about our executive compensation program. At the invitation of management, Meridian Compensation Partners occasionally attends committee meetings and reviews committee materials.

NASDAQ OMX's human resources department also engages Towers Watson to collect, tabulate and analyze the BES, which compiles feedback and other data from employees on a wide range of issues that impact the company's effectiveness as an organization. As discussed below, the results of this survey impact each named executive officer's annual performance-based cash incentive award.

Compensation of Our CEO

Consistent with his employment agreement, our CEO's compensation is determined on an annual basis by the board of directors and the management compensation committee. On a semiannual basis, the board and committee review Mr. Greifeld's performance in executive session as part of the deliberative process to evaluate CEO performance against corporate goals and determine appropriate CEO compensation. The factors considered by the board and the committee include Mr. Greifeld's performance against his annual performance objectives, the performance of the company, the quality and development of the management team and the management of the CEO and executive succession plan. The semiannual review process is led by the chairman of the board of directors and the chairman of the management compensation committee.

Compensation of Our Other Named Executive Officers

With the support of NASDAQ OMX's human resources department, our CEO develops compensation recommendations for each of the executive vice presidents for consideration by the management compensation committee and the board of directors. As part of this process, our CEO meets individually with each executive to discuss his or her performance against pre-established objectives determined during the previous year, as well as performance objectives and development plans for the coming year. This meeting gives each executive an opportunity to present his or her perspective of his or her performance and potential objectives and challenges for the upcoming year. Our CEO presents the results of the meetings with each executive to the management compensation committee for their review and consideration as part of the committee's deliberation process.

Tally Sheets

When recommending compensation for the CEO and the other named executive officers, the committee reviews a peer group analysis, which is discussed further below, and tally sheets that detail the various elements of compensation, including equity compensation, for each executive. The

committee uses these tally sheets to evaluate the appropriateness of the total compensation package, to compare each executive's total compensation opportunity with his or her actual payout and to ensure that the compensation appropriately reflects the compensation program's focus on pay for performance.

General Principles of the Committee When Recommending Executive Compensation

To determine the recommended amounts and mix of compensation elements, the management compensation committee considers the following general principles.

- *Pay for Performance.* The primary focus of NASDAQ OMX's executive compensation program is on pay for performance. Therefore, the committee considers the executive's contribution to our short- and long-term financial performance, as well as his or her performance on other critical aspects of management that are qualitative in nature and may not be easily quantified into dollars (such as building our brand, employee development and regulatory excellence).
- *Retention.* In addition to rewarding employees through a pay for performance philosophy, the executive compensation program also focuses on retaining employees, particularly those in roles critical to the company's long-term success. To this end, equity grants generally have performance-based and/or time-based vesting features to ensure that an employee must remain with the company for a period of time to receive value from the grant.
- *Competitive Market Analysis.* The committee identifies compensation amounts that peers/competitors within the industry are paying to executives with similar positions and levels of experience, skills, education and responsibilities. The committee also considers industry and general economic conditions in assessing market competitiveness. However, while the committee uses this analysis as one of several tools in making executive compensation recommendations, the committee does not set the compensation levels of our executives based solely upon this analysis.
- *Internal Equity.* Our executives' compensation generally increases with position and responsibility. The committee believes that compensation amounts should reflect the different levels of responsibilities and performance among our executives and between our CEO, who is responsible for the entire organization, and our other executives, who are responsible for a functional area or a line of business.
- *Collateral Implications.* The committee designs our total compensation mix to encourage our executives to take appropriate risks aimed at improving the company's performance and building long-term stockholder value. In addition, to mitigate any incentive to take inappropriate risks, each of our named executive officers is subject to the stock ownership guidelines and incentive recoupment policy discussed further below. The committee also considers the tax and accounting impact of the compensation program, as well as any regulatory compliance issues. Furthermore, the compensation program is subject to a comprehensive risk assessment process that is intended to identify any areas of the compensation structure that may unintentionally encourage inappropriate risk-taking.

The committee considers all of these principles in recommending compensation packages structured to reward the individual executive. Each individual component of compensation is considered independently and is not based on a formula; however, each component is intended to be complementary to the overall compensation package awarded to the executive.

Pay for Performance

The management compensation committee believes the compensation for NASDAQ OMX's executives should be performance-based. Therefore, there were no guaranteed cash incentive awards for any named executive officer in 2012.

The management compensation committee and board of directors set target compensation levels for the performance-based elements of the compensation program. With respect to cash compensation, the allocation between base salary and annual cash incentives is determined based on the amount of cash compensation that the committee and board wish to place “at risk.” “At risk” means that the executive will not realize any economic benefit unless the applicable objectives, most of which are tied to our overall company or business unit financial performance, are met or exceeded. Consistent with our compensation philosophy, our annual performance-based cash incentive plans are structured to ensure that a significant portion of each executive’s total cash compensation is contingent on performance and continued employment and, therefore, “at risk.”

Competitive Market Analysis

To evaluate the external competitiveness of our executive compensation program, the management compensation committee compares certain elements of the program to similar elements used by peer companies. The committee uses a comprehensive peer group, consisting of 20 companies, for competitive market analysis of the compensation program for our named executive officers. The committee believes that the usage and disclosure of a peer group supports good governance and provides valuable input to compensation design and amount decisions.

In initially selecting the comprehensive peer group in 2011, the committee considered potential peers among both direct industry competitors and companies in related industries with similar talent needs. After identifying potential peers on this basis, the committee used the following seven screening criteria to select appropriate peer companies:

- revenue size;
- market capitalization size;
- financial performance;
- direct exchange competitors;
- financial services companies;
- technology-dependent companies; and
- companies with global complexity.

Each of these factors was initially weighted equally to develop a more refined list of companies for consideration. The committee then further reviewed each remaining company to determine its appropriateness for our final peer group with a particular focus on identifying meaningful talent peers. Certain companies were eliminated because of factors such as a significantly different market capitalization, their limited competitive position for executive talent or their limited global complexity relative to NASDAQ OMX.

In 2012, the committee reviewed the comprehensive peer group against the criteria described above but did not modify the group. The committee believes that the peer group includes an accurate representation of NASDAQ OMX’s industry competitors and size-relevant, talent-focused comparators. In addition, the committee believes that year-over-year consistency in peer group usage is desirable for reviewing trends in market pay movement.

The peer group consists of the following 20 companies.

- Automatic Data Processing, Inc.
- CBOE Holdings, Inc.
- Deutsche Börse AG
- DST Systems, Inc.
- Fidelity National Information Services, Inc.
- IntercontinentalExchange, Inc.
- Legg Mason, Inc.
- MasterCard Incorporated
- TD Ameritrade Holding Corporation
- TMX Group Inc.
- BGC Partners Inc.
- CME Group Inc.
- Discover Financial Services
- E*TRADE Financial Corporation
- Fiserv, Inc.
- Invesco Ltd.
- London Stock Exchange Group plc
- NYSE Euronext
- The Charles Schwab Corporation
- Visa Inc.

In addition, the committee takes into account that NASDAQ OMX faces competition for talent from private firms, such as high frequency and other small trading firms and private equity funds, for which public compensation data is not available.

Peer group data serves as only one reference point that the committee considers in evaluating our executive compensation program. The committee uses this data to see how various elements of our executive compensation program compare to other companies. However, the committee does not set the compensation of our executives based on this data or target NASDAQ OMX's executive compensation to a specific percentile of the compensation set by our competitors. Instead, the comparison is conducted solely to determine if the compensation is competitive to the market, as represented by the peer group. Therefore, each executive is evaluated individually based on skills, knowledge, performance, development potential and, in the committee's business judgment, the value he or she brings to the organization and NASDAQ OMX's retention risk.

ANALYSIS OF 2012 EXECUTIVE COMPENSATION ELEMENTS

Annual Base Salaries

The management compensation committee normally reviews base salaries on an annual basis before the beginning of each year so that any changes will be effective on January 1. Occasionally, the committee may recommend adjustments to base salaries during the year in response to significant changes in an executive's responsibilities or events that would impact the long-term retention of a key executive. The committee and board establish salaries at levels commensurate with each executive's title, position and experience, recognizing that each executive is managing a component of a complex global company.

Under the terms of Mr. Greifeld's employment agreement, his base salary for 2012 was \$1 million, which has remained unchanged since 2006. The management compensation committee and board decided that leaving his salary unchanged for 2012 was consistent with the terms of his employment agreement and the provisions of Section 162(m) of the Internal Revenue Code of 1986, as amended (Code), that limit to \$1 million the amount of non-performance-based compensation paid to the CEO that the company may deduct for federal income tax purposes.

Following its compensation review at the end of 2011, the committee and board did not change the base salaries for any of the other named executive officers for 2012. The committee and board believed that each base salary is within a competitive range of the market median for base salary for a comparable position.

The following table shows each named executive officer's base salary at December 31, 2012 and 2011.

Named Executive Officer	Base Salary at December 31, 2012	Base Salary at December 31, 2011
Robert Greifeld	\$ 1,000,000	\$ 1,000,000
Lee Shavel	\$ 500,000	\$ 500,000
Anna M. Ewing	\$ 500,000	\$ 500,000
Hans-Ole Jochumsen(1)	\$ 496,608	\$ 518,112
Eric W. Noll	\$ 500,000	\$ 500,000

- (1) Mr. Jochumsen's base salary of 3,360,000 Swedish krona did not change between December 31, 2011 and December 31, 2012. The difference in the above table is due to the difference in the average foreign exchange rate, which was \$0.1478 per krona for 2012 and \$0.1542 per krona for 2011. These exchange rates are used throughout the "Compensation Discussion and Analysis" and "Executive Compensation" sections to convert Swedish krona to U.S. dollars.

Annual Performance-Based Cash Incentive Awards

Annual performance-based cash incentives are an integral part of our executive compensation program. Mr. Greifeld and all of NASDAQ OMX's executive vice presidents receive such awards through our stockholder-approved Executive Corporate Incentive Plan (ECIP).

Plan-Based Target Award Opportunities

At the beginning of each year, the management compensation committee and board of directors establish the target annual cash incentive award opportunity for our named executive officers. As provided under his employment agreement, Mr. Greifeld's target annual cash incentive award opportunity for 2012 was 210% of base salary. For 2012, the committee and board set the target annual cash incentive award opportunity for each of the other named executive officers at approximately 150% of base salary, based on an assessment of each officer's position and responsibilities, the competitive market analysis and the company's retention objectives.

Performance Goals

The annual cash incentive award payments for our executives are based on the achievement of pre-established performance goals. The CEO selects and recommends goals for each executive vice president based on their areas of responsibility and on input from each executive. The management compensation committee and the board of directors review and consider our CEO's recommendations and approve the goals for the coming year after identifying the objectives most critical to our future growth and most likely to hold executives accountable for the operations for which they are responsible.

The annual cash incentive awards are tied to results in the following areas:

- two corporate objectives, including:
 - operating income (run rate), which measures business efficiency and profitability; and
 - net revenue, which measures the ability to drive revenue growth;
- business unit strategic objectives, which are defined business unit-specific goals that contribute to the company's short and long-term performance; and
- the BES, which is survey-compiled feedback from employees on a wide range of issues that impact the company's effectiveness as an organization.

Operating income (run rate) and net revenue are the company's primary measures of short-term business success and the key drivers of long-term stockholder value. Operating income (run rate) and net revenue targets are set at the beginning of each year, as part of the company's annual budgeting process.

Business unit strategic objectives also are established at the beginning of the year, and consist of financial and non-financial strategic objectives specific to the business unit. The committee and board set the business unit strategic objectives to reflect the key responsibilities of each executive and incent focus on particular objectives in 2012.

The business unit strategic objectives are described below.

- Mr. Shavel's strategic objectives related to: Corporate Strategy initiatives, including transactions; and Corporate Finance goals relating to expense management, stock price performance, risk management, NASDAQ OMX's Growth Initiative Fund Team and return on investment capital analysis.
- Ms. Ewing's strategic objectives related to: Global Technology Services financial results, service delivery and compliance; and Market Technology financial results and strategic initiatives goals.
- Mr. Jochumsen's strategic objectives related to: Transaction Services Nordic financial results; and Global Data Products financial results.
- Mr. Noll's strategic objectives related to: Transaction Services U.S. financial results and strategic goals; and a NASDAQ OMX NLX Limited strategic goal.

The BES is conducted at the end of each year by Towers Watson, a national human resources consulting firm. The survey compiles feedback from employees on a wide range of issues that impact the company's effectiveness as an organization. Management uses the BES on an annual basis to assess past decisions and provide an opportunity for employees to voice their views on how management is doing and how improvements to the organization can be made. This goal is measured on a sliding scale of 1 to 100 based on survey goals. A score of less than 50 resulted in 0% payout, a score of 67 to 72 resulted in a 100% payout and a score of 90 or higher resulted in a 200% payout.

The management compensation committee and board of directors set the targets for each of the goals at levels where the maximum payout would be difficult to achieve and beyond budget assumptions. The following table shows each named executive officer's performance objectives for 2012 and the relative weighting of these objectives.

Named Executive Officer	Target Incentive Compensation Opportunity	Corporate Objectives		Business Unit Strategic Objectives	BES
		Operating Income (Run Rate)	Net Revenue		
Robert Greifeld	\$ 2,100,000	55%	35%	—	10%
Lee Shavel	\$ 750,000	40%	15%	35%	10%
Anna M. Ewing	\$ 750,000	15%	15%	60%	10%
Hans-Ole Jochumsen	\$ 739,000	10%	10%	70%	10%
Eric W. Noll	\$ 750,000	10%	10%	70%	10%

Potential Payouts

Payouts are determined by the management compensation committee and board of directors after the end of the year and are based on the sum of (i) actual performance under each corporate objective, (ii) where applicable, actual performance against an executive's business unit strategic objectives and (iii) the results of the BES. Each goal applicable to the named executive officers for 2012 had a minimum, target and maximum performance level.

Scoring of each goal is based on actual goal achievement compared to the target. In 2012, as in past years, payouts on most goals could vary between 0% and 200% of the target. However, funding of non-financial business unit strategic objectives was limited to 160% of target in 2012.

Corporate Objectives Performance vs. Goals

With respect to the corporate objectives, the minimum, target and maximum performance levels, NASDAQ OMX's actual performance for 2012 and the resultant payout percentage of the target incentive award amounts were as follows:

Corporate Objective	Minimum	Target	Maximum (for 200% payout)	NASDAQ OMX's Results for 2012 as Measured for Compensation Purposes	Payout Percentage of Target Incentive Award Amount
Operating Income (Run Rate)(1)	\$696.0 million	\$730.2 million - \$750.2 million	\$795.0 million	\$757.0 million	115%
Net Revenue(1)	\$ 1,630.2 million	\$1,682.7 million - \$1,712.7 million	\$ 1,770.2 million	\$ 1,651.6 million	41%

- (1) For these purposes, operating income (run rate) and net revenue exclude the effects of foreign exchange and extraordinary transactions. Operating income (run rate) also excludes certain non-recurring expense items, such as charges relating to restructuring, special legal expenses, mergers and strategic initiatives, sublease reserves and other expenses, as well as a gain relating to a value-added tax refund. Net revenue also excludes gains from open positions relating to the operations of The NASDAQ Stock Market. As a result, these calculations differ from the GAAP calculations of operating income and revenues less transaction rebates, brokerage, clearance and exchange fees reported in our Form 10-K.

For further information about NASDAQ OMX's financial results in 2012, see "Compensation Discussion and Analysis – 2012 Business Highlights."

Business Unit Strategic Objectives Performance vs. Goals

The committee and board assessed each officer's achievement of the business unit strategic objectives in 2012, as described below.

Mr. Shavel

Mr. Shavel's business unit strategic objectives were scored as follows:

Goal	Goal Weighting	Score as a Percent of Target
Corporate Strategy initiatives, including transactions	10%	160%

BES Performance vs. Goals

With respect to the BES goal, the named executive officers received a range of payouts from 125% to 175% of the target incentive award amounts allocated to this goal.

Award Payouts

In early 2013, the committee and board received a final report on the level of achievement on each goal, and on the basis of this report, it approved payouts for 2012.

Under the ECIP, the management compensation committee may, in its sole discretion, reduce some or all of the amount that would otherwise be payable with respect to an award. For 2012, the committee and board reduced Mr. Greifeld's ECIP payout by \$542,100 and Ms. Ewing's ECIP payout by \$263,625. The committee and board explicitly considered the Facebook IPO in connection with their review and determination of these reduced payouts.

The actual annual cash incentive award payouts to the named executive officers for 2012 and 2011 are set forth in the following table.

Named Executive Officer	2012 ECIP Award Payout	2011 ECIP Award Payout	2012 Payout vs. 2011 Payout
Robert Greifeld	\$ 1,350,000	\$ 3,591,000	(62)%
Lee Shavel	\$ 878,625	\$ 1,290,000	(32)%

Long-Term Stock-Based Compensation

Long-term incentive compensation consists entirely of equity awards. The management compensation committee and board of directors believe that equity awards align the interests of our employees with those of our stockholders by rewarding outstanding performance and providing incentives to increase the value of our stockholders' investments.

New Performance-Based Long-Term Incentive Program. On March 16, 2012, the committee and board approved a new performance-based long-term incentive program for our CEO, executive vice presidents and senior vice presidents that focuses on TSR. Consistent with our pay for performance philosophy, this program represents 100% of our CEO and executive vice presidents' long-term stock-based compensation and 50% of our senior vice presidents' long-term stock-based compensation. In any event, all of the long-term stock-based compensation awarded to these individuals is performance-based.

The committee and board believe that the new program better aligns the equity structure for the CEO with the executive and senior vice presidents, optimizes the retention value of equity awards and better utilizes the accounting expense associated with equity awards.

Under the program, each individual received a grant of PSUs subject to a three-year cumulative performance period beginning on January 1, 2012 and ending on December 31, 2014. Performance is determined by comparing NASDAQ OMX's TSR to two groups of companies, each weighted 50%. One group consists of all S&P 500 companies, and the other group consists of the following 13 exchange companies.

- ASX Ltd
- Bolsa Mexicana de Valores
- CBOE Holdings, Inc.
- Deutsche Börse AG
- Interactive Brokers Group
- London Stock Exchange Group plc
- TMX Group Inc.
- BGC Partners Inc.
- Bolsas Y Mercados Espanoles
- CME Group Inc.
- ICAP plc
- IntercontinentalExchange, Inc.
- NYSE Euronext

NASDAQ OMX's relative performance ranking against each of these groups will determine the final number of shares delivered to each individual under the program. The maximum payout will be 200% of the number of PSUs granted if NASDAQ OMX ranks at the 85th percentile or above of both groups. However, if NASDAQ OMX's TSR is negative for the three-year performance period, regardless of TSR ranking, the payout will not exceed 100% of the number of PSUs granted.

Below is a table showing the amount of shares a grantee may receive based upon different levels of achievement against each of the groups.

Percentile Rank of NASDAQ OMX's Three-Year TSR Versus the Relevant Group	Resulting Shares Earned (% of Half of Target)
≥ 85 th Percentile	200%
67.5 th Percentile	150%
50 th Percentile	100%
25 th Percentile	50%
10 th Percentile	30%
0 Percentile	0%

For levels of achievement between points, the resulting shares earned will be calculated based on straight-line interpolation.

The target amount of PSUs awarded to each of the named executive officers under this program is set forth in the table below. The awards were made on May 7, 2012, which was the date of NASDAQ OMX's annual all-employee equity grant.

Named Executive Officer	Target Amount of PSUs Awarded
Robert Greifeld	247,440
Lee Shavel	59,727
Anna M. Ewing	59,727
Hans-Ole Jochumsen	51,195
Eric W. Noll	59,727

The management compensation committee and board of directors preliminarily determined the target amount of Mr. Greifeld's award in connection with the negotiation of his new employment agreement in early 2012. The committee and board referenced peer group data to establish a market-competitive award level.

Mr. Greifeld recommended the specific awards for each of the other named executive officers, which varied among executives depending upon responsibilities and retention considerations. The committee and board evaluated these recommendations and determined that the amount of each award reflected the individual's contributions, was aligned with competitive market levels and was appropriate for retention purposes.

Settlement of March 2010 PSU Grant to CEO. In March 2013, the management compensation committee and board determined the number of shares that Mr. Greifeld was entitled to receive upon vesting in connection with his March 2010 PSU grant, which had a target amount of 80,000 shares. These PSUs had a performance period from January 1, 2010 through December 31, 2012 and a performance target of non-GAAP EPS growth compounded annually over the three-year performance period. Non-GAAP EPS growth was determined based upon the amount by which our adjusted non-GAAP EPS for the fiscal year ended December 31, 2012 exceeded our non-GAAP EPS for the fiscal year ended December 31, 2009, which had been determined to be \$1.81.

The following table sets forth the number of shares that Mr. Greifeld was entitled to receive at settlement of the March 2010 PSU grant at varying non-GAAP EPS growth performance levels.

	Minimum Performance	Target Performance	Maximum Performance
Non-GAAP EPS Growth (compounded annual increase over the Performance Period)	6% growth	12% growth	18% growth
Adjusted Non-GAAP EPS Level	\$2.16	\$2.54	\$2.97
Number of Shares Deliverable	40,000	80,000	120,000

The committee and board determined that adjusted non-GAAP EPS growth fell between the minimum and target performance levels, and therefore, Mr. Greifeld was entitled to receive a pro-rated amount of 75,789 shares, which was 95% of target.

Non-GAAP EPS was calculated by adjusting our reported GAAP EPS for significant non-recurring charges or gains (and their related income tax effects) that were not related to our core business. The non-GAAP EPS for the fiscal year ended December 31, 2012 also was adjusted for certain stock or asset acquisitions that occurred during the performance period. The committee and board relied on the company's audited financial statements, non-GAAP reconciliations and related information for purposes of determining the amount of non-GAAP EPS growth.

General Equity Award Grant Practices

The reference price for calculating the value of equity awards is the closing market price of NASDAQ OMX's common stock on the date of grant. The management compensation committee and board of directors consider whether to make equity awards at a regularly scheduled meeting. Regular board and committee meetings are scheduled well in advance without regard to material news announcements by NASDAQ OMX. Existing equity ownership levels are not a factor in award determinations as we do not want to discourage the named executive officers from holding significant amounts of NASDAQ OMX's common stock.

Throughout the performance period, the management compensation committee receives updates on the executives' progress in achieving the applicable performance measures and monitors the compensation expense that the company is incurring for outstanding equity awards. The committee believes that the current and expected expense amounts are reasonable and justified in light of the committee's goals of aligning the long-term interests of officers and employees with those of stockholders and retaining the current management team.

Rule 10b5-1 Plans

NASDAQ OMX permits all employees, including the named executive officers, to enter into plans established under Rule 10b5-1 of the Exchange Act to enable them to trade in our stock, including stock received through equity grants, during periods in which they might not otherwise be able to trade because material nonpublic information about NASDAQ OMX has not been publicly released. These plans include specific instructions to a broker to trade on behalf of the employee if our stock price reaches a specified level or if certain other events occur, and therefore, the employee no longer controls the decision to trade in our stock. As of December 31, 2012, two of our named executive officers had Rule 10b5-1 plans in place.

Stock Ownership Guidelines

We have long recognized the importance of stock ownership as an important means of closely aligning the interests of our executives with the interests of our stockholders. In addition to using equity awards

as a primary long-term incentive compensation tool, we have in place stock ownership guidelines for our CEO, CFO, executive vice presidents and senior vice presidents. Under its charter, the management compensation committee is responsible for reviewing annually the stock ownership guidelines and verifying compliance thereunder.

Under the guidelines, our CEO, CFO, executive vice presidents and senior vice presidents are expected to own specified dollar amounts of NASDAQ OMX common stock based on a multiple of their base salary. The multiple is determined by officer level: our CEO must hold shares valued at a 6X multiple of base salary, our CFO must hold a 4X multiple, other executive vice presidents must hold a 3X multiple and senior vice presidents must hold a 1X multiple. Individual holdings, shares jointly owned with immediate family members or held in trust, shares of restricted stock (including vested and unvested), vested shares underlying PSUs and shares purchased or held through NASDAQ OMX's plans, such as the NASDAQ OMX Employee Stock Purchase Plan (ESPP), count toward satisfying the guidelines. New executives and executives who incur a material change in their responsibilities are expected to meet the applicable level of ownership within four years of their start date or the date of the change in responsibilities. Senior vice presidents subject to these guidelines when the guidelines were amended in 2009 to cover this level of officer are expected to meet the applicable level of ownership by October 21, 2013. All of the named executive officers were in compliance with the guidelines as of December 31, 2012.

Stock Holding Requirement

We encourage our CEO, CFO, executive vice presidents and senior vice presidents to retain equity grants until the applicable stock ownership level is reached. Under the guidelines, these officers must hold the specified dollar amounts of stock through the end of their employment with NASDAQ OMX. We feel that our stock ownership guidelines provide proper alignment of the interests of our management and our stockholders, and therefore, we do not have additional stock holding requirements beyond the stock ownership guidelines.

Prohibition on Hedging and Pledging

NASDAQ OMX does not allow directors or Section 16 officers to engage in securities transactions that allow them either to insulate themselves, or profit, from a decline in NASDAQ OMX's stock price (with the exception of selling shares outright). Specifically, these individuals may not enter into hedging transactions with respect to NASDAQ OMX's common stock, including short sales and transactions in derivative securities. Finally, these individuals may not pledge, hypothecate or otherwise encumber their shares of NASDAQ OMX common stock.

Retirement Savings Plans

NASDAQ OMX's retirement savings plans are part of our overall compensation and benefits program. The management compensation committee considers appropriate retirement savings options to be a critical component of the package to retain employees at all levels. For more information about NASDAQ OMX's retirement savings plans, see "Executive Compensation – Retirement Benefits."

Limited Severance Arrangements

Except as described below in certain circumstances under the employment agreements with Messrs. Greifeld and Jochumsen, under the employment offer letter with Mr. Shavel and in the case of a change in control of the company, we are not obligated to pay general severance or other enhanced benefits to any named executive officer upon termination of his or her employment. However, the management compensation committee has the discretion to pay severance plan benefits. Severance plan decisions do not influence the management compensation committee's other recommendations regarding compensation as these other decisions are focused on motivating our executives to remain with NASDAQ OMX and contribute to our future success.

Mr. Greifeld's employment agreement contains provisions for the payment of severance benefits if the company terminates his employment without "cause" or Mr. Greifeld terminates his employment "for good reason." There are separate provisions for severance benefits if such termination occurs (i) without regard to a change in control or (ii) within two years of a change in control. "Good reason" includes a reduction in Mr. Greifeld's position, duties or authority, the company's failure to secure agreement of any successor entity that he will continue in his position, relocation of Mr. Greifeld's principal work location beyond a 50 mile radius of the current location or any other material breach of the employment agreement.

Mr. Jochumsen's employment agreement contains a provision for the payment of severance benefits if his employment is terminated by the company on grounds other than Mr. Jochumsen's substantial breach of the agreement. Under this provision, the company must give Mr. Jochumsen 12 months' notice of termination, and Mr. Jochumsen will be entitled to severance pay equal to six months' salary payable in a lump sum on his last day of employment.

Mr. Shavel's employment offer letter contains a provision for the payment of severance benefits in the event of a reduction-in-force or other involuntary termination of employment (other than a termination for "cause" as defined in the Equity Plan or a change in control of the company) during the first three years of employment through May 2014. Under this provision, Mr. Shavel will be eligible for 15 months of severance pay at his then current base salary and any additional severance benefits (excluding severance pay) provided under the company's then current in-practice severance policy.

When the company completed its transition to a public company and adopted an acquisition strategy, the management compensation committee and the board of directors approved change in control agreements in 2005 for each executive not previously covered by such an agreement (letter agreements). In structuring these letter agreements, the management compensation committee evaluated comparable change in control severance arrangements offered by other peer companies in the financial services industry and considered the size of the severance package the committee might approve in other contexts. These letter agreements are intended to provide management stability and to reduce any reluctance on the part of executives to pursue potential transactions that may enhance the value of our stockholders' investments. The management compensation committee reviews these letter agreements on a regular basis to ensure that they remain appropriate for NASDAQ OMX's executive compensation program. Of the named executive officers, Messrs. Shavel and Noll and Ms. Ewing are currently party to these letter agreements.

The management compensation committee believes that the terms for triggering payment under each of the agreements described above are reasonable and that some of the terms are more restrictive in several important ways than change in control agreements at many other companies. For example, under the letter agreements, a severance payment is available only if termination of employment ("other than for cause" if by NASDAQ OMX or for "good reason" if by the executive) occurs within one year following a "change in control" of the company or in certain situations within 180 days prior to a change in control. For Mr. Greifeld, a severance payment as a result of a change in control is available only if termination of employment occurs within two years following the change in control. The letter agreements, Mr. Greifeld's employment agreement and Mr. Jochumsen's employment agreement use what is known as a "double trigger," meaning that a severance payment as a result of a change in control is activated only upon the occurrence of both a change in control of the company and a loss of employment. Benefits under these agreements will be provided only if NASDAQ OMX is the target organization. In addition, a change in control under these agreements is limited to situations where the acquirer obtains a majority of NASDAQ OMX's voting securities or the current members of our board of directors (or their approved successors) cease to constitute a majority of the board. Finally, the agreements do not modify or otherwise change the treatment of the executive's outstanding equity awards upon a "double trigger" termination in connection with a change in control without cause or for good reason.

For further information on NASDAQ OMX's limited severance arrangements, see "Executive Compensation – Potential Payments upon Termination or Change in Control."

Health and Welfare Benefits

We provide a voluntary comprehensive health and welfare benefits program to our executives, including the named executive officers that mirrors the program offered to our other employees. Named executive officers also are allowed to participate in our ESPP on the same terms as other employees.

Limited Perquisites

Because our executive compensation program emphasizes pay for performance, it includes very few perquisites for our executives. In view of the demands of his position, we provide Mr. Greifeld with a company car and driver for use when conducting company business. Mr. Greifeld reports his use of the company car and driver for personal reasons in the Summary Compensation Table included below under "Executive Compensation." In 2012, this amount was \$27,742, which was the incremental cost of Mr. Greifeld's personal use of the car (including commutation) based on an allocation of the cost of the driver, tolls, fuel and maintenance.

Officers at the level of senior vice president and above are eligible to receive basic financial planning services and executive health exams. Participation in each of these programs is voluntary. We also provide extended sickness insurance to certain non-U.S. executives. We do not provide tax gross-up payments on perquisites.

GLOBAL ETHICS AND COMPLIANCE PROGRAM

The NASDAQ OMX board annually reviews the company's global ethics and compliance program, including the code of ethics and supporting policies. NASDAQ OMX will take action to remedy any fraudulent or intentional misconduct by an employee. Discipline would vary depending on the facts and circumstances, and may include termination of employment or initiation of an action for breach of fiduciary duty under the company's code of ethics. These remedies would be in addition to, and not in lieu of, any actions imposed by law enforcement agencies, regulators or other authorities.

INCENTIVE RECOUPMENT POLICY

The board and committee have adopted an incentive recoupment or "clawback" policy that is applicable to the named executive officers and other executive vice presidents. The policy provides that the company may recoup any cash or equity incentive payments predicated upon the achievement of financial results or operating metrics that were subsequently determined to be incorrect on account of material errors, material omissions, fraud or misconduct.

TAX IMPLICATIONS OF EXECUTIVE COMPENSATION

The management compensation committee considers the income tax consequences of individual compensation elements when it is analyzing the overall level of compensation and the mix of compensation among individual elements.

Section 162(m) of the Code provides a limit of \$1 million on the remuneration that may be deducted by a public company in any year in respect of the CEO and the three other most highly compensated executive officers (other than the principal financial officer), with an exception to this limitation for certain "performance-based compensation." NASDAQ OMX attempts to structure our compensation arrangements so that amounts paid are tax deductible to the extent feasible and consistent with our overall compensation objectives. Depending upon the relevant circumstances at the time, the committee may determine to award compensation that may not be deductible. In making this determination, the committee balances the purposes and needs of our executive compensation program against potential tax cost.

Elimination of Tax Gross-Up Provision

Mr. Greifeld's 2012 employment agreement eliminated a prior provision that entitled Mr. Greifeld to a limited gross-up payment in the event of termination after a change in control to reimburse him for any excise tax imposed under Section 4999 of the Code, as well as any additional income and employment taxes resulting from such reimbursement.

Mr. Greifeld's 2012 employment agreement includes a "best net provision" for any amounts payable to Mr. Greifeld upon a "double trigger" termination in connection with a change in control without cause or for good reason. Under this provision, if any amounts payable to Mr. Greifeld would be characterized as excess parachute payments and due to that characterization, Mr. Greifeld would be subject to an excise tax under Section 4999 of the Code, the amounts will be reduced. The reduction will be to an amount so that none of the amounts payable constitute excess parachute payments if this would result, after taking into account the applicable federal, state and local income taxes and the excise tax imposed by Section 4999, in Mr. Greifeld's receipt on an after-tax basis of the greatest amount of termination and other benefits.

Neither Mr. Jochumsen's employment agreement nor the change in control letter agreements with our other named executive officers provide for tax gross-ups or reimbursements of any excise or other taxes that may be payable by the executive under Section 4999 of the Code in connection with the change in control of the company. The change in control letter agreements provide that, if any payments or benefits to an executive would be subject to an excise tax under Section 4999, payments and/or benefits to the executive will be reduced to an amount that does not trigger an excise tax.

2012 EMPLOYMENT AGREEMENT WITH CEO

On February 22, 2012, NASDAQ OMX entered into a new employment agreement with Robert Greifeld, NASDAQ OMX's CEO. The new employment agreement replaces NASDAQ OMX's prior employment agreement with Mr. Greifeld, which was entered into effective January 1, 2007.

The management compensation committee and board of directors considered the following factors important in negotiating the new employment agreement:

- during Mr. Greifeld's tenure, NASDAQ OMX has transformed from a single U.S.-based cash equities exchange to a global company that operates multiple exchanges, clearing organizations and central securities depositories across multiple asset classes. In addition, our technology powers more than 70 exchanges, clearing organizations and central securities depositories in over 50 countries;
- continuity of leadership at the CEO level is important to continue building stockholder value, and it is therefore important to retain Mr. Greifeld for a fixed period of time;
- consistent with the prior employment agreement, the new employment agreement emphasizes long-term pay for performance incentives; and
- to the extent possible, the new employment agreement reflects best practices in executive compensation and corporate governance.

The management compensation committee and Mr. Greifeld agreed that the terms of the prior employment agreement were sufficient in most respects (e.g., base salary, benefits and short-term incentives). Therefore, the terms of the new employment agreement with Mr. Greifeld are similar in most respects to the terms of his prior agreement.

Significantly, the new employment agreement has a term of five years, with no automatic renewals thereafter. The agreement guarantees the same base salary and target annual incentive compensation award as under the prior agreement. The agreement does not guarantee the grant of any equity awards, although Mr. Greifeld may be granted equity awards under the Equity Plan, based on the management compensation committee's evaluation of the performance of NASDAQ OMX and

Mr. Greifeld, peer group market data and internal equity, and consistent with past practices with respect to the combined aggregate value of prior grants. Finally, the agreement sets forth the payments that Mr. Greifeld will receive under various termination scenarios and eliminates a provision from Mr. Greifeld's prior employment agreement that provided for a modified excise tax reimbursement with a gross-up payment in limited circumstances.

In negotiating the new agreement, the committee utilized Cook & Co., its former outside, independent compensation consultant, to advise on executive compensation and corporate governance matters. When requested by the committee, Cook & Co. provided independent advice, analyzed current market conditions and helped design the compensation package to be both competitive and effective at driving long-term performance and increasing stockholder value.

For a further description of the key terms of Mr. Greifeld's employment agreement, see "Executive Compensation – Employment Agreements" and "Executive Compensation – Potential Payments upon Termination or Change in Control."

EMPLOYMENT AGREEMENTS

NASDAQ OMX currently has employment agreements with two of its named executive officers, Messrs. Greifeld and Jochumsen.

Robert Greifeld

On February 22, 2012, NASDAQ OMX entered into a new employment agreement with Robert Greifeld, NASDAQ OMX's CEO. The new employment agreement replaced NASDAQ OMX's existing employment agreement with Mr. Greifeld, which was effective January 1, 2007. In addition to the new employment agreement, NASDAQ OMX and Mr. Greifeld entered into a confidentiality, non-solicitation and invention assignment agreement.

The new employment agreement with Mr. Greifeld has a term of five years, with no automatic renewals thereafter. The agreement provides for:

- annual base salary of not less than \$1,000,000; and
- annual incentive compensation that is targeted at not less than 200% of base salary based on the achievement of one or more performance goals established for such year by the management compensation committee of NASDAQ OMX's board of directors.

The agreement does not guarantee the grant of any equity awards to Mr. Greifeld. Mr. Greifeld may be granted equity awards under the Equity Plan, based on the management compensation committee's evaluation of the performance of NASDAQ OMX and Mr. Greifeld, peer group market data and internal equity, and consistent with past practices with respect to the combined aggregate value of prior grants.

The agreement prohibits Mr. Greifeld from rendering services to a competing entity for a period of two years following the date of termination of employment. To receive certain termination payments and benefits under the new employment agreement, Mr. Greifeld must execute a general release of claims against NASDAQ OMX. In addition, such termination payments and benefits are generally subject to discontinuation in the event Mr. Greifeld breaches the restrictive covenants in either the employment agreement or the confidentiality, non-solicitation and invention assignment agreement.

On December 11, 2012, NASDAQ OMX entered into a memorandum of understanding with Mr. Greifeld relating to the calculation of certain severance payments under his employment agreement. The memorandum of understanding clarifies the meanings of certain terms relevant to these calculations.

The employment agreement, as clarified by the memorandum of understanding, sets forth the payments that Mr. Greifeld will receive under various termination scenarios. For further information about these payments and benefits, see "Executive Compensation – Potential Payments upon Termination or Change in Control."

Hans-Ole Jochumsen

NASDAQ OMX also has an employment agreement with Hans-Ole Jochumsen, our Executive Vice President, Transaction Services Nordic. The employment agreement was entered into on July 1, 2008 and may be terminated by NASDAQ OMX, subject to 12 months' prior notice, or by Mr. Jochumsen, subject to six months' prior notice. If not previously terminated, the agreement will automatically terminate at the earlier of the date of Mr. Jochumsen's retirement or his reaching the age of 65.

The agreement provides for:

- an annual base salary of not less than 3,200,000 Swedish krona, to be reviewed each year consistent with NASDAQ OMX's policies; and

- a pension contribution totaling 20% of his monthly base salary during the term of the agreement.

The agreement does not guarantee the grant of any equity awards to Mr. Jochumsen. Mr. Jochumsen may be granted equity awards under the Equity Plan, at the discretion of the board of directors. Mr. Jochumsen is entitled to health and long-term disability coverage and other benefits consistent with NASDAQ OMX's policies.

Upon termination of employment by Mr. Jochumsen, the agreement prohibits Mr. Jochumsen from rendering services to a competing entity for a period of six months following the date of termination. During this six month period, Mr. Jochumsen will be entitled to his monthly salary. Upon termination of the employment agreement by Mr. Jochumsen or NASDAQ OMX, Mr. Jochumsen is restricted from soliciting NASDAQ OMX employees for a period of 12 months from the termination date.

The agreement sets forth the payments that Mr. Jochumsen will receive under various termination scenarios. For further information about these payments and benefits, see "Executive Compensation – Potential Payments upon Termination or Change in Control."

RETIREMENT BENEFITS

401(k) Plan

NASDAQ OMX provides a tax-qualified Section 401(k) savings plan (401(k) Plan) for eligible employees. As of December 31, 2012, all of the named executive officers, except Mr. Jochumsen, participated in the 401(k) Plan. NASDAQ OMX matches employee contributions to this plan during the year up to 4% of base salary, not to exceed the Internal Revenue Service (IRS) annual limits. For the year ended December 31, 2012, NASDAQ OMX also provided true-up matching to ensure that employees who contributed 4% of base salary to the 401(k) Plan in 2012 would receive the maximum company match for 2012, regardless of the timing of employee contributions.

Frozen Pension Plan and SERP

Effective May 1, 2007, the Pension Plan and SERP were fully frozen for all employees, and new retirement benefits were implemented on July 1, 2007. As a result, the eligible named executive officers have accrued Pension Plan and SERP benefits only through April 30, 2007. As of that date, the plan participants no longer accrue additional benefits from future salary earnings and years of service with NASDAQ OMX.

Employer Retirement Contributions (ERCs)

Retirement benefits available for service after May 1, 2007 include two features. The first part of the retirement benefits, which is provided through the existing 401(k) Plan, is available to eligible U.S. employees, including the U.S.-based named executive officers, on the same terms. Under the plan, NASDAQ OMX:

- matches an employee's contributions to the 401(k) Plan up to 4% of base salary;
- makes discretionary tax-qualified contributions to the 401(k) Plan, called the Basic Employer Retirement Contributions (Basic ERC), within specified guidelines based on years of service; and
- makes discretionary additional tax-qualified contributions, called Enhanced Employer Retirement Contributions (Enhanced ERC), for employees age 45 or older with at least 10 years of service as of December 31, 2006.

The second part of NASDAQ OMX's retirement program is a non-qualified plan called Supplemental Employer Retirement Contributions (Supplemental ERC). The Supplemental ERC is available to officers and non-officers whose base salaries exceed the IRS compensation limit of \$250,000 (for 2012) or whose total employee and NASDAQ OMX contributions to qualified plans exceed the IRS total annual contribution limit, generally \$50,000 (for 2012). For years in which an ERC is contributed to the 401(k) Plan, a Supplemental ERC will be contributed for those employees for whom the ERC must be reduced by operation of these IRS limits. The Supplemental ERC is equal to the difference between the ERC that would have been contributed for the employee had the IRS limits not applied, and the actual ERC contributed to the 401(k) Plan.

Employees may direct investment of Basic ERC and Enhanced ERC contributions among the various mutual funds available through our 401(k) Plan. Supplemental ERC contributions receive interest at a rate set forth in the plan document. Unlike the Pension Plan and SERP, the ERC benefits allow for immediate vesting.

Most employees outside of the U.S. are covered by local retirement plans or by applicable social laws. Mr. Jochumsen participates in a non-U.S. defined contribution pension plan. Under this type of plan, NASDAQ OMX makes annual contributions equal to a percentage of fixed salary to participants' personal accounts. Each participant is free to invest such contributions as he or she chooses.

Participants are not taxed on the contributions until they are withdrawn upon retirement. Under his employment agreement, Mr. Jochumsen is entitled to receive annual contributions under this plan equal to 20% of his base salary.

PENSION BENEFITS TABLE

The table below shows the actuarial present value of accumulated benefits payable to each of the named executive officers, including the number of years of service credited to each such named executive officer, under the Pension Plan and the SERP as of December 31, 2012. Messrs. Jochumsen, Noll and Shavel are not participants in the Pension Plan or SERP.

2012 Pension Benefits Table

Name	Plan Name	Number of Years Credited Service (#)	Present Value of Accumulated Benefit (\$)(1)	Payments During Last Fiscal Year (\$)
Robert Greifeld	Pension Plan	9.67	\$ 140,556	—
Chief Executive Officer	SERP	9.67	\$ 4,660,800	—
Anna M. Ewing	Pension Plan	12.25	\$ 199,346	—
Executive Vice President, Global Technology Solutions	SERP	12.25	\$ 722,538	—

- (1) The amounts reported comprise the actuarial present value of the named executive officer's accumulated benefit under the Pension Plan and SERP as of December 31, 2012. Assumptions used in calculating the amounts include a 4.00% discount rate as of December 31, 2012, retirement at age 62 (which is the earliest age at which a participant may retire and receive unreduced benefits under the plans) and other assumptions used for financial statement reporting purposes under generally accepted accounting principles as described in footnote 11 to the company's audited financial statements for the fiscal year ended December 31, 2012 included in our Form 10-K.

Generally, participants in the Pension Plan become vested in retirement benefits under the plan after five years of service from the participant's date of hire. As of December 31, 2012, Mr. Greifeld and Ms. Ewing were vested in benefits payable under the Pension Plan. Participants in the SERP generally become vested in retirement benefits under the SERP after reaching age 55 and completing 10 years of service. Under the provisions of his employment agreement, Mr. Greifeld is vested in benefits payable under the SERP. None of the other named executive officers were vested in benefits payable under the SERP as of December 31, 2012.

NONQUALIFIED DEFINED CONTRIBUTION AND OTHER NONQUALIFIED DEFERRED COMPENSATION PLANS

As of December 31, 2012, the only nonqualified defined contribution plan in which our named executive officers participated was the Supplemental ERC. The table below shows the amounts contributed to this plan by, or on behalf of, our named executive officers during the fiscal year ended December 31, 2012 and other information. Mr. Jochumsen is not a participant in the Supplemental ERC.

For each named executive officer, these amounts are reported in the column “All Other Compensation” in the “Summary Compensation Table.”
- (2) The amounts reported in this column represent interest earned during 2012 on account balances. Interest is paid at an annual rate of 7% (which is the 10-year U.S. Treasury securities rate on the effective date of the Supplemental ERC program plus an additional 1%).
- (3) The amounts reported in this column represent account balances at December 31, 2012. These amounts include contributions that the company has made to the named executive officers under the Supplemental ERC and interest earned on account balances. To the extent that the named executive officers were considered named executive officers in prior years’ proxy statements, the Supplemental ERC contributions for prior years were reported in the column “All Other Compensation” in the “Summary Compensation Table” found in our proxy statement for the annual meeting of stockholders.

POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE IN CONTROL

Change in Control Agreements

Mr. Greifeld's employment agreement provides for limited payments and benefits in the event of termination of employment following a change in control of the company. Mr. Jochumsen's employment agreement provides for a severance payment in the event of termination of employment by the company for any reason, other than substantial breach of the agreement. In addition, we have entered into letter agreements with the other named executive officers providing limited payments and benefits to them if their employment is terminated in connection with a change in control of the company. Payments and benefits under these agreements are subject to a "double trigger," meaning that payments are payable only upon the occurrence of both a change in control of the company and a loss of employment.

Under Mr. Greifeld's employment agreement and the agreements with the other named executive officers (other than Mr. Jochumsen), a change in control generally consists of the first to occur of the following:

- any person becomes the beneficial owner, directly or indirectly, of more than 50% of the company's voting securities (except in limited circumstances);
- a majority of the directors on the board are replaced by directors not endorsed by at least two-thirds of the members of the board before the date of appointment or election;
- the consummation of a merger or consolidation, unless (1) the company's voting securities prior to the transaction continue to represent more than 50% of the voting securities of the surviving entity (either by remaining outstanding or being converted into voting securities of the surviving entity) or (2) the transaction effectuates a recapitalization of the company in which no person directly or indirectly acquires more than 50% of the company's then outstanding voting securities (other than acquisitions directly from the company); or
- the sale or disposition by the company of all or substantially all of its assets.

We also have provisions in our Equity Plan that provide for the accelerated vesting of outstanding unvested equity awards in the event of a termination due to a change in control of the company.

Robert Greifeld

Under Mr. Greifeld's employment agreement, if his employment is terminated within two years after a change in control either by the company without cause or by Mr. Greifeld for good reason, he will be entitled to the following severance payments and benefits from the company:

- a cash payment for unpaid base salary through the date of termination, accrued but unpaid vacation through the date of termination and any earned but unpaid incentive compensation for the calendar year prior to the date of termination (Base Obligations);
- a cash payment equal to the sum of: (i) two times the prior year's annual base salary, (ii) the target bonus amount for the calendar year preceding the year in which the termination occurs and (iii) any pro rata target bonus with respect to the calendar year in which the termination occurs to the extent that performance goals are satisfied;
- a taxable monthly cash payment equal to the Consolidated Omnibus Budget Reconciliation Act (COBRA) premium for the highest level of coverage available under the company's group health plans, reduced by the monthly amount that Mr. Greifeld would pay for such coverage if he was an active employee, until the earlier of 24 months or the date he is eligible for coverage under the health care plans of a subsequent employer; and
- continued life insurance and accidental death and dismemberment insurance benefits for 24 months for the same period as the continued health coverage payments.

Under a “best net provision,” if any amounts payable to Mr. Greifeld due to a change in control would be characterized as excess parachute payments and due to that characterization, Mr. Greifeld would be subject to an excise tax under the Code, the amounts will be reduced. The reduction will be to an amount so that none of the amounts payable constitute excess parachute payments if this would result, after taking into account the applicable federal, state and local income taxes and the excise tax imposed by Section 4999, in Mr. Greifeld’s receipt on an after-tax basis of the greatest amount of termination and other benefits.

Mr. Greifeld’s right to these amounts is subject to his compliance with several restrictive covenants in his employment agreement and confidentiality, non-solicitation and invention assignment agreement, including covenants that require him to maintain the confidentiality of the company’s proprietary information and to refrain from disparaging the company. Mr. Greifeld also is prohibited from soliciting the company’s employees or rendering services for a competing entity for a period of two years following the date of termination. Further, to receive payments and benefits upon a change in control, Mr. Greifeld must execute a general release of claims against the company. In addition, the change in control payments and benefits generally are subject to discontinuation in the event Mr. Greifeld breaches the restrictive covenants.

In addition to the payments described above, under a change in control, Mr. Greifeld would be entitled to any vested Pension Plan and SERP benefits.

Hans-Ole Jochumsen

Under Mr. Jochumsen’s employment agreement, if his employment is terminated by the company on grounds other than Mr. Jochumsen’s substantial breach of the agreement, the company must give Mr. Jochumsen 12 months’ notice of termination, and Mr. Jochumsen will be entitled to severance pay equal to six months’ salary payable in a lump sum on his last day of employment.

Other Named Executive Officers

Under the letter agreements with the named executive officers (other than Messrs. Greifeld and Jochumsen), if the executive’s employment is terminated by the company without cause or by the executive for good reason, either (x) during the 180-day period immediately prior to a change in control of the company (if the executive can reasonably demonstrate that the termination or good reason event was at the request of a third party that effects the change in control) or (y) during the one year period immediately following the change in control, then he or she will be entitled to the following severance payments and benefits from the company:

- cash payments equal to 24 months of annual base salary;
- 100% of the annual target incentive award for the year in which termination occurs plus any earned but unpaid cash incentive award for a completed plan year;
- payment of COBRA premiums for continued medical and dental benefits until the earlier of (1) termination of the executive’s COBRA continuation period; (2) 24 months following termination; or (3) the date the executive secures subsequent employment with comparable medical and dental coverage;
- continued life insurance and accidental death and dismemberment insurance benefits for 24 months;
- any vested accrued benefits under the Pension Plan or SERP; and
- outplacement services for a period of 12 months or, if earlier, until the executive’s first acceptance of an employment offer.

An executive is not entitled to benefits under the letter agreements if his or her termination of employment is on account of his or her death or disability.

In addition, the letter agreements do not provide for indemnification of any “golden parachute” excise taxes that may be payable by an executive under Section 4999 of the Code in connection with the change in control of the company. Rather, the agreements provide, if any payments or benefits to an executive would be subject to an excise tax under Section 4999, payments and/or benefits to the executive would be reduced to an amount that would not trigger such excise tax.

The letter agreements contain restrictive covenants, which, among other things, require the executive to maintain the confidentiality of the company’s proprietary information and to refrain from disparaging the company. The executive is also prohibited from soliciting the company’s employees or rendering services to a competing entity for a period of one year following termination in connection with a change in control. Further, to receive the payments and benefits, the executive must execute a general release of claims against the company. In addition, the change in control payments and benefits generally are subject to discontinuation in the event an executive breaches the restrictive covenants.

Equity Plan

With respect to a change in control, the employment agreements of Messrs. Greifeld and Jochumsen and the letter agreements of the other named executive officers do not change the terms of existing equity awards, which continue to be governed by the Equity Plan and the relevant terms and conditions of the individual award agreements. Under the Equity Plan, if an employee, including a named executive officer, is terminated by the company other than for cause within a one-year period after a change in control of the company, the vesting of all outstanding unvested equity awards will accelerate to the date of termination.

Payments upon Termination (other than for Cause or Change in Control)

Robert Greifeld

Under Mr. Greifeld’s employment agreement, if his employment is terminated by the company without cause, or by Mr. Greifeld for good reason, he will be entitled to the following severance payments and benefits from the company:

- the Base Obligations;
- a cash payment equal to the sum of: (i) two times the prior year’s annual base salary, (ii) the target bonus amount for the calendar year preceding the year in which the termination occurs and (iii) any pro rata target bonus with respect to the calendar year in which the termination occurs to the extent that performance goals are satisfied; and
- a taxable monthly cash payment equal to the COBRA premium for the highest level of coverage available under the company’s group health plans, reduced by the monthly amount that Mr. Greifeld would pay for such coverage if he was an active employee, until the earlier of 24 months or the date he is eligible for coverage under the health care plans of a subsequent employer.

In addition, Mr. Greifeld would be entitled to any vested Pension Plan and SERP benefits. Mr. Greifeld’s vested stock options would remain exercisable for 36 months, his unvested options, if any, would continue to vest for 30 months subject to restrictive covenants and any performance share units would continue to vest subject to the satisfaction of the related performance objectives and continued compliance with the restrictive covenants.

Mr. Greifeld also may terminate his employment by providing the company with at least 270 days prior written notice. If Mr. Greifeld’s employment is terminated due to delivery of such notice, he will be entitled to the following payments and benefits:

- the Base Obligations;
- a cash payment equal to any pro rata target bonus with respect to the calendar year in which the termination occurs to the extent that performance goals are satisfied; and

- continued vesting of all outstanding equity awards, based on actual performance during the relevant performance period.

Lee Shavel

Under the terms of Mr. Shavel's employment offer letter, in the event of a reduction-in-force or other involuntary termination of employment (other than a termination for "cause" as defined in the Equity Plan or a change in control of the company) during the first three years of employment, Mr. Shavel will be eligible for 15 months of severance pay at his then current base salary and any additional severance benefits (excluding severance pay) provided under the company's then current in-practice severance policy.

Hans-Ole Jochumsen

Under Mr. Jochumsen's employment agreement, if his employment is terminated by the company on grounds other than Mr. Jochumsen's substantial breach of the agreement, the company must give Mr. Jochumsen 12 months' notice of termination, and Mr. Jochumsen will be entitled to severance pay equal to six months' salary payable in a lump sum on his last day of employment.

Other Named Executive Officers

Other than Messrs. Greifeld, Jochumsen and Shavel, none of the other named executive officers has an agreement with the company providing for severance payments and benefits in the event of termination of employment for reasons other than a change in control. According to predetermined NASDAQ OMX guidelines regarding post-termination payments, in the event of a reduction-in-force or other involuntary termination of employment (other than a "for cause" termination), the other named executives are entitled to receive 15 months of base salary continuation, eligibility to purchase COBRA health benefits for 18 months and up to nine months of outplacement services. Any severance payments and benefits would be made at the sole discretion of the company.

Under the ECIP, in the event a named executive officer's employment is terminated for any reason other than death, disability or retirement, the executive's right to a non-equity incentive plan compensation award for the calendar year of termination is forfeited. The management compensation committee, in its sole discretion, may pay a pro rata non-equity incentive plan compensation award to the executive for the calendar year of termination. However, in the case of retirement, no such pro-rata award shall be paid unless the performance goals associated with the award have been met.

In addition, upon termination of employment, the named executive officers would receive the benefits to which they would be entitled under the company's Pension Plan and SERP to the extent that they are vested in these plans.

Payments upon Death, Disability or Retirement

Upon termination of employment on account of death or disability, the named executive officers receive payments pursuant to life insurance or disability insurance purchased by the executive and available to employees generally. Under the ECIP, a named executive officer may, in the discretion of the management compensation committee, receive a pro rata portion of his or her non-equity incentive plan compensation award in the event of death, disability or retirement (provided that, in the case of retirement, the performance goals associated with the award have been met). Under Mr. Greifeld's employment agreement, in the event of death or disability, he is entitled to a pro rata target bonus with respect to the calendar year in which the date of termination occurs and accelerated vesting of all unvested stock option awards. With respect to the other named executive officers, under the relevant terms and conditions of the Equity Plan and the individual equity award agreements, all stock option or restricted stock awards that would have vested within one year from the date of death or disability will

immediately vest and all vested options may be exercised until the earlier of one year from the date of death or disability or their expiration date. Under Mr. Greifeld's existing PSU award agreements, his unvested PSU awards will continue to vest at the end of the performance period(s) for such awards. Under the PSU award agreements for the other named executive officers, in the event of disability, unvested PSU awards will be forfeited. In the event of death, unvested PSU awards will vest at the later of the date of death or the completion of the performance period(s) for such awards.

Upon retirement, the named executive officers receive the benefits to which they would be entitled under the company's Pension Plan and SERP to the extent that they are vested in these plans. Under the term and conditions of the Equity Plan and the equity award agreements, all stock option and restricted stock awards that would have vested within one year from the date of retirement will immediately vest and all vested options may be exercised until the earlier of one year from the date of retirement or their expiration date. Under Mr. Greifeld's existing PSU award agreements, his unvested PSU awards will continue to vest at the end of the performance period(s) for such awards. Under the PSU award agreements for the other named executive officers, in the event of retirement, unvested PSU awards will be forfeited.

Estimated Change in Control or Termination Payments and Benefits at the End of 2012

The tables below reflect the payments and benefits payable to each of the named executive officers in the event of a termination of the executive's employment under several different circumstances. The amounts shown assume that termination was effective as of December 31, 2012, given the executive's compensation and service levels as of that date, and are estimates of the amounts that would be payable to the named executive officers in each situation. The actual amounts to be paid can only be determined at the time of an executive's actual separation from the company. Factors that may affect the nature and amount of payments made on termination of employment, among others, include the timing of the event, compensation level, the market price of the company's common stock and the executive's age.

The reported value of the accelerated vesting of outstanding equity awards is based on the intrinsic value of these awards (the value based upon the market price of the company's common stock on December 31, 2012, reduced in the case of stock options, by the option exercise price). In the case of performance share unit awards for which the performance period has not been completed, the number of shares with accelerated vesting is assumed to be at the target level and at the closing market price on December 31, 2012. The amounts reported for Pension Plan and SERP benefits represent the actuarial present value of the named executive officer's accumulated benefit under the Pension Plan and SERP as of December 31, 2012. Assumptions used in calculating the amounts include a 4.00% discount rate as of December 31, 2012, retirement at age 62 (which is the earliest age at which a participant may retire and receive unreduced benefits under the plans) and other assumptions used for financial reporting purposes under generally accepted accounting principles as described in footnote 11 to our audited financial statements for the fiscal year ended December 31, 2012 included in our Form 10-K. Under the Pension Plan and SERP, none of the named executive officers was eligible to retire and receive unreduced benefits as of December 31, 2012.

PROPOSAL IV

Approval of an Amendment of NASDAQ OMX's Restated Certificate of Incorporation to Remove and Replace the Supermajority Voting Requirements

After due consideration, and upon the recommendation of our nominating & governance committee, our board of directors has determined that it is in the best interests of NASDAQ OMX and its stockholders to amend NASDAQ OMX's restated certificate of incorporation to remove and replace the supermajority voting requirements.

Rationale

At last year's annual meeting, our stockholders approved, with 68% of the vote, a stockholder proposal requesting that our board of directors take the steps necessary to replace the supermajority voting requirements in NASDAQ OMX's restated certificate of incorporation and by-laws. Following this vote, the nominating & governance committee met several times to review the restated certificate of incorporation and by-laws, discuss potential courses of action to respond to the vote and consider other potential voting requirements. Ultimately, the nominating & governance committee determined, and the board of directors agreed, that it is in the best interests of NASDAQ OMX and its stockholders to replace each supermajority voting requirement in our restated certificate of incorporation and by-laws with a "majority of outstanding shares" voting requirement.

In developing this view, the committee and board considered the relative weight of the arguments for and against supermajority voting requirements. The committee and board recognize that supermajority voting requirements protect corporations against coercive takeover tactics by requiring broad stockholder support for certain types of transactions or governance changes. However, the committee and board also recognize that corporate governance standards have evolved. Some commentators argue that supermajority requirements limit stockholders' participation in corporate governance. The committee and board note that while it is important to protect against coercive takeover tactics, it is also critically important to obtain stockholder input and respond to stockholder concerns about corporate governance.

The committee and board believe that the proposed "majority of outstanding shares" voting requirement will continue to provide some protection against proposals that are harmful to the stockholders. While this requirement is less difficult to satisfy than the current supermajority voting requirement, it is more difficult to satisfy than a "majority of votes cast" requirement, which the committee and board considered as an alternate option. The committee and board believe that a "majority of outstanding shares" standard is a balanced outcome that responds to stockholder feedback while appropriately maintaining NASDAQ OMX's defensive posture against hostile takeovers.

As a result and based on stockholder input, the board, on the recommendation of the committee, is submitting to the stockholders for approval a proposal to remove and replace each supermajority voting requirement in NASDAQ OMX's restated certificate of incorporation, as described further below, with a "majority of outstanding shares" voting requirement.

NASDAQ OMX's restated certificate of incorporation currently includes the following three supermajority voting requirements.

- **Removal of Directors.** Article Fifth, Paragraph D provides that, except for directors elected by the holders of any series of preferred stock, any director, or the entire board of directors, may be removed from office at any time, but only by the affirmative vote of at least 66 2/3% of the total voting power of the outstanding shares of NASDAQ OMX's capital stock entitled to vote generally in the election of directors (Voting Stock), voting together as a single class.

- **Adoption, Alteration, Amendment and Repeal of By-Laws.** Article Eighth, Paragraph A provides that the affirmative vote of the holders of at least 66 2/3% of the total voting power of the outstanding Voting Stock, voting together as a single class, shall be required in order for the stockholders to adopt, alter, amend or repeal any by-law.
- **Adoption, Alteration, Amendment and Repeal of Certain Charter Provisions.** Article Ninth, Paragraph A provides that the affirmative vote of the holders of at least 66 2/3% of the voting power of the outstanding Voting Stock, voting together as a single class, shall be required to amend, repeal or adopt any provision inconsistent with paragraph C of Article Fourth, Article Fifth, Article Seventh, Article Eighth or Article Ninth of the Charter. These provisions are described in general terms below.
 - Paragraph C of Article Fourth sets forth the 5% voting limitation, which provides that holders of NASDAQ OMX's voting securities may not cast votes in excess of 5% of NASDAQ OMX's outstanding voting securities.
 - Article Fifth includes certain provisions relating to the board of directors, such as board size and director elections.
 - Article Seventh prohibits stockholder action by written consent.
 - Article Eighth establishes the procedures to adopt, alter, amend or repeal NASDAQ OMX's by-laws.
 - Article Ninth establishes the procedures to adopt, alter, amend or repeal NASDAQ OMX's restated certificate of incorporation.

In each of the three provisions described above, NASDAQ OMX proposes to remove the supermajority voting requirement and replace it with a voting standard requiring the affirmative vote of a majority of the outstanding Voting Stock.

Conforming Changes to NASDAQ OMX's By-Laws

NASDAQ OMX's by-laws also include conforming supermajority voting provisions relating to the removal of directors and the adoption, alteration, amendment and repeal of the by-laws. Conditional upon approval by the stockholders of the amendments to the restated certificate of incorporation described in this proposal, NASDAQ OMX's board, on the recommendation of the committee, has voted to remove the supermajority voting standards from the by-laws and replace them with a standard requiring the affirmative vote of a majority of the outstanding shares of stock entitled to vote.

Review and Approval by the SEC

In connection with our operation of self-regulatory organizations in the United States, NASDAQ OMX is subject to SEC oversight, as prescribed by the Exchange Act. Under the Exchange Act, these self-regulatory organizations must submit to the SEC proposed changes to any of their rules, practices and procedures, including amendments to provisions of our restated certificate of incorporation and by-laws that are deemed to constitute rules. If our stockholders approve this proposal, we will file the proposed changes to our restated certificate of incorporation, as well as the proposed changes to the by-laws described above, with the SEC. We cannot guarantee that the SEC will allow the proposed changes to become effective. In any event, the proposed changes will not become effective until they are filed and effective with the SEC and, where necessary, the state of Delaware.

Complete Text of Proposed Amendment and Restatement

The general description of the proposed amendments of NASDAQ OMX's restated certificate of incorporation described above is qualified in its entirety by reference to the text of the proposed amended and restated certificate of incorporation, which is attached as Annex A to this proxy statement. Proposed additions are double-underlined, and proposed deletions are stricken through.

Vote Required

The adoption of this proposal requires the affirmative vote of the holders of at least 66 2/3% of the voting power of the outstanding Voting Stock, voting together as a single class. Abstentions and broker non-votes have the effect of a vote against this proposal.

RECOMMENDATION OF THE BOARD OF DIRECTORS

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE “FOR” PROPOSAL IV.

PROPOSAL V

Approval of an Amendment and Restatement of NASDAQ OMX's Restated Certificate of Incorporation to Make Other Non-Substantive Changes

After due consideration, and upon the recommendation of our nominating & governance committee, our board of directors has determined that it is in the best interests of NASDAQ OMX and its stockholders to amend and restate NASDAQ OMX's restated certificate of incorporation to make other non-substantive changes.

Rationale

In connection with their review of the restated certificate of incorporation described in Proposal IV above, the committee and board also recommended amending and restating the document to make other non-substantive changes as described below.

- **Deletion of Obsolete References.** The proposal deletes obsolete references to the following:
 - the 3.75% Series A Convertible Notes due 2012 and the 3.75% Series B Convertible Notes due 2012, which are no longer outstanding, in Article Fourth, Paragraph C and Article Eleventh;
 - a voting trust agreement, which is no longer in effect, in Article Fourth, Paragraph C(3)(b)(iii));
 - ownership of NASDAQ OMX securities by the National Association of Securities Dealers, Inc., certain affiliates of Hellman & Friedman LLC, and certain affiliates of Silver Lake, none of which currently own any NASDAQ OMX securities, in Article Fourth, Paragraph C(6); and
 - a classified board structure, which was fully eliminated in 2007, in Article Fifth, Paragraph B.
- **Correction of Typographical Error.** The proposal corrects a typographical error in Article Fifth, Paragraph A.

The committee and board believe that the amendment and restatement of the restated certificate of incorporation to incorporate these non-substantive changes is in the best interests of NASDAQ OMX and its stockholders because it will simplify and streamline the document.

Review and Approval by the SEC

In connection with our operation of self-regulatory organizations in the United States, NASDAQ OMX is subject to SEC oversight, as prescribed by the Exchange Act. Under the Exchange Act, these self-regulatory organizations must submit to the SEC proposed changes to any of their rules, practices and procedures, including amendments to provisions of our restated certificate of incorporation and by-laws that are deemed to constitute rules. If our stockholders approve this proposal, we will file the proposed changes to our restated certificate of incorporation with the SEC. We cannot guarantee that the SEC will allow the proposed changes to become effective. In any event, the proposed changes will not become effective until they are filed and effective with the SEC and the state of Delaware.

Complete Text of Proposed Amendment and Restatement

The general description of the proposed amendment and restatement of NASDAQ OMX's restated certificate of incorporation described above is qualified in its entirety by reference to the text of the proposed amended and restated certificate of incorporation, which is attached as Annex A to this proxy statement. Proposed additions are double underlined, and proposed deletions are stricken through.

The proposed amendment and restatement also will include the amendments described in Proposal IV, if and when those amendments become effective.

Separately, the board, on the recommendation of the committee, has approved elimination of the certificate of designation of series A convertible preferred stock, which is an exhibit to the restated certificate of incorporation, since there are no longer any shares of the series A convertible preferred stock outstanding. We did not include the certificate of designation because we are not proposing any changes to that document for stockholder approval. The elimination is contingent upon filing and effectiveness with the SEC and the state of Delaware, as described above.

Vote Required

The adoption of this proposal requires the affirmative vote of the holders of at least 66 2/3% of the voting power of the outstanding Voting Stock, voting together as a single class. Abstentions and broker non-votes have the effect of a vote against this proposal.

RECOMMENDATION OF THE BOARD OF DIRECTORS

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE “FOR” PROPOSAL V.

The NASDAQ OMX board knows of no business other than the matters described in this proxy statement that will be presented at the annual meeting. To the extent that matters not known at this time may properly come before the annual meeting, absent instructions thereon to the contrary, the enclosed proxy will confer discretionary authority with respect to such other matters as may properly come before the meeting, and it is the intention of the persons named in the proxy to vote in accordance with their judgment on such other matters.

Section 16(a) of the Exchange Act, and regulations of the SEC thereunder, require our executive officers and directors, and persons who own more than 10% of a registered class of our equity securities collectively, to file reports of initial ownership and changes in ownership with the SEC. Based solely on our review of copies of such forms received by NASDAQ OMX, or on written representations from reporting persons that no other reports were required for such persons, we believe that during 2012, our executive officers, directors and 10% stockholders complied with all of the Section 16(a) filing requirements.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

The audit committee of our board of directors has adopted a written policy regarding related party transactions. For purposes of the policy, a “related party” generally includes directors, director nominees, executive officers, greater than 5% stockholders, immediate family members of any of the foregoing, entities that are affiliated with any of the foregoing and our independent auditing firm. Under the policy, all transactions with related parties are subject to ongoing review and approval or ratification by the audit committee.

In determining whether to approve or ratify a related party transaction, the audit committee considers, among other things, the following factors:

- whether the terms of the related party transaction are fair to NASDAQ OMX and whether such terms would be on the same basis if the transaction did not involve a related party;
- whether there are business reasons for NASDAQ OMX to enter into the related party transaction;
- whether the related party transaction would impair the independence of an outside director;
- whether the related party transaction would present a conflict of interest for any director or executive officer of NASDAQ OMX, taking into account:
 - the size of the transaction;
 - the overall financial position of the director or executive officer;
 - the direct or indirect nature of the director’s or executive officer’s interest in the transaction;
 - the ongoing nature of any proposed relationship; and
 - any other factors deemed relevant;
- whether the related party transaction is material, taking into account:
 - the importance of the interest to the related party;
 - the relationship of the related party to the transaction and of related parties to each other;
 - the dollar amount involved; and
 - the significance of the transaction to NASDAQ OMX investors in light of all the circumstances.

Under the policy, related party transactions that are conducted in the ordinary course of NASDAQ OMX’s business and on substantially the same terms as those prevailing at the time for comparable services provided to unrelated third parties or to NASDAQ OMX’s employees on a broad basis are considered pre-approved by the audit committee.

The following section describes transactions since the beginning of the fiscal year ended December 31, 2012, in which NASDAQ OMX or any of its subsidiaries was a party, in which the amount involved exceeded \$120,000 and in which a director, a director nominee, an executive officer, a security holder known to own more than five percent of our common stock or an immediate family member of any of the foregoing had, or will have, a direct or indirect material interest. - We officially submitted our first comprehensive Global Reporting Initiative report.
- We improved our reporting to the Carbon Disclosure Project.
- NASDAQ OMX was accepted into the United Nations Global Compact.
- NASDAQ OMX entered into a historic agreement with other key exchanges to develop and promote sustainability standards.
- We made significant infrastructure improvements, including an increasing number of LEED and other environmental certifications for our global offices.
- NASDAQ OMX Helsinki was the first exchange to receive a WWF Green Office diploma, and one of the first in the world to go carbon neutral.
- Through the World Federation of Exchanges, we promoted sustainability dialogue and consensus with other stock markets and exchanges.
- We regularly assisted our listed companies in various ways, helping them better handle sustainability as an aspect of their own operation.
- We forged several partnerships with advocacy groups, non-governmental organizations and economists in the last year to better understand the interplay of sustainability metrics and market dynamics.

5. Any constructions, applications, or determinations made by the Board, pursuant to this paragraph C. of this Article Fourth, in good faith and on the basis of such information and assistance as was then reasonably available for such purpose, shall be conclusive and binding upon Nasdaq; and its stockholders ~~and the holders of the Notes~~.
6. Notwithstanding anything herein to the contrary, subparagraph 2 of this paragraph C. of this Article Fourth shall not be applicable to any Excess Shares ~~and/or Notes beneficially owned by (a) the NASD or its Affiliates until such time as the NASD beneficially owns five percent (5%) or less of the outstanding shares of stock and/or Notes entitled to vote on the election of a majority of directors at such time, (b) any other beneficially owned by any person as may be approved for such exemption by the Board prior to the time such person beneficially owns more than five percent (5%) of the outstanding shares of stock ~~and/or Notes~~ entitled to vote on the election of a majority of directors at such time or (c) Hellman & Friedman Capital Partners IV, L.P., H & F International Partners IV-A, L.P., H & F International Partners IV-B, L.P., H& F Executive Fund, IV L.P., Silver Lake Partners H TSA, L.P., Silver Lake Technology Investors II, L.L.C., Silver Lake Partners TSA, L.P., and Silver Lake Investors, L.P. or their respective affiliated investment funds that are: (i) under common management and control; (ii) comprised of members or partners with the same ultimate ownership, and (iii) subject to terms and conditions that are substantially identical in all material respects, if the Board has approved an exemption for any other person pursuant to Section 6(b) of this paragraph C. of this Article Fourth (other than an exemption granted in connection with the establishment of a strategic alliance with another exchange~~

The Board, however, may not approve an exemption under Section 6(b): (i) for a Broker registered broker or dealer or an Affiliate thereof or (ii) an individual or entity that is subject to a statutory disqualification under Section 3(a)(39) of the Exchange Act. The Board may approve an exemption for any other stockholder ~~or holder of Notes~~ if the Board determines that granting such exemption would (A) not reasonably be expected to diminish the quality of, or public confidence in, Nasdaq or The NASDAQ Stock Market LLC or the other operations of Nasdaq and its subsidiaries, on the ability to prevent fraudulent and manipulative acts and practices and on investors and the public, and (B) promote just and equitable principles of trade, foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to and facilitating transactions in securities or assist in the removal of impediments to or perfection of the mechanisms for a free and open market and a national market system.~~

7. In the event any provision (or portion thereof) of this paragraph C. of this Article Fourth shall be found to be invalid, prohibited or unenforceable for any reason, the remaining provisions (or portions thereof) of this paragraph C. of this Article Fourth shall remain in full force and effect, and shall be construed as if such invalid, prohibited or unenforceable provision (or portion hereof) had been stricken herefrom or otherwise rendered inapplicable, it being the intent of Nasdaq, and its stockholders ~~and the holders of the Notes~~ that each such remaining provision (or portion thereof) of this paragraph C. of this Article Fourth remains, to the fullest extent permitted by law, applicable and enforceable as to all stockholders ~~and all holders of Notes~~, including stockholders ~~and holders of Notes~~ that beneficially own Excess Shares ~~and/or Notes~~, notwithstanding any such finding.

- A. The business and affairs of Nasdaq shall be managed by, or under the direction of, the Board. The total number of directors constituting the entire Board shall ~~be~~ be fixed from time to time by the Board.
- B. ~~Subject to the provisions of this paragraph B, the Board~~ The directors (other than those directors elected by the holders of any series of Preferred Stock provided for, or fixed pursuant to the provisions of Article Fourth hereof (the “Preferred Stock Directors”))

~~shall be divided into three classes, as nearly equal in number as possible, designated Class I, Class II and Class III. Each director elected or appointed prior to this effectiveness of this Certificate of Amendment under the General Corporation Law of the State of Delaware shall serve for his or her full term, such that the term of each Class I director shall expire at the 2007 annual meeting of stockholders; the term of each Class II director shall expire at the 2005 annual meeting of stockholders; and the term of each Class III director shall expire at the 2006 annual meeting of stockholders. In case of any increase or decrease, from time to time, in the number of directors (other than Preferred Stock Directors), the number of directors in each class shall be apportioned as nearly equal as possible. The term of each director elected at the 2005 annual meeting of stockholders and at each subsequent annual meeting of stockholders shall expire at the first annual meeting of stockholders following his or her election. Commencing with the 2007 annual meeting of stockholders, the foregoing classification of the Board shall cease, and the directors, other than the Preferred Stock Directors, shall be elected at an annual meeting of stockholders, or at a special meeting called for such purpose in lieu of the annual meeting, by the holders of the Voting Stock (as hereinafter defined) and shall hold office until the next annual meeting of stockholders and until their respective successors shall have been duly elected and qualified, subject, however, to prior death, resignation, retirement, disqualification or removal from office.~~

- C. Subject to the rights of the holders of any one or more series of Preferred Stock then outstanding, newly created directorships resulting from any increase in the authorized number of directors or any vacancies in the Board resulting from death, resignation, retirement, disqualification, removal from office or other cause shall only be filled by the Board. No decrease in the number of directors shall shorten the term of any incumbent director.
- D. Except for Preferred Stock Directors, any director, or the entire Board, may be removed from office at any time, but only by the affirmative vote of ~~at least 66 2/3% of the total voting power~~ a majority of the outstanding shares of capital stock of Nasdaq entitled to vote generally in the election of directors (“Voting Stock”), voting together as a single class.
- E. During any period when the holders of any series of Preferred Stock have the right to elect additional directors as provided for or fixed pursuant to the provisions of Article Fourth hereof, then upon commencement and for the duration of the period during which such right continues: (i) the then otherwise total authorized number of directors of Nasdaq shall automatically be increased by such specified number of directors, and the holders of such Preferred Stock shall be entitled to elect the additional directors so provided for or fixed pursuant to said provisions, and (ii) each such additional director shall serve until such director’s successor shall have been duly elected and qualified, or until such director’s right to hold such office terminates pursuant to said provisions, whichever occurs earlier, subject to his earlier death, disqualification, resignation or removal. Except as otherwise provided by the Board in the resolution or resolutions

establishing such series, whenever the holders of any series of Preferred Stock having such right to elect additional directors are divested of such right pursuant to the provisions of such stock, the terms of office of all such additional directors elected by the holders of such stock, or elected to fill any vacancies resulting from death, resignation, disqualification or removal of such additional directors, shall forthwith terminate and the total authorized number of directors of Nasdaq shall automatically be reduced accordingly.

ARTICLE SIXTH

- A. A director of Nasdaq shall not be liable to Nasdaq or its stockholders for monetary damages for breach of fiduciary duty as a director, except to the extent that such exemption from liability or limitation thereof is not permitted under the General Corporation Law of the State of Delaware as the same exists or may hereafter be amended.
- B. Any repeal or modification of paragraph A shall not adversely affect any right or protection of a director of Nasdaq existing hereunder with respect to any act or omission occurring prior to such repeal or modification.

ARTICLE SEVENTH

No action that is required or permitted to be taken by the stockholders of Nasdaq at any annual or special meeting of stockholders may be effected by written consent of stockholders in lieu of a meeting of stockholders.

ARTICLE EIGHTH

- A. In furtherance of, and not in limitation of, the powers conferred by law, the Board is expressly authorized and empowered to adopt, amend or repeal the By-Laws of Nasdaq; provided, however, that the By-Laws adopted by the Board under the powers hereby conferred may be amended or repealed by the Board or by the stockholders having voting power with respect thereto, provided further that, notwithstanding any other provision of this Restated Certificate of Incorporation or any provision of law which might otherwise permit a lesser vote or no vote, but in addition to any affirmative vote of the holders of any particular class or series of the stock required by law or this Restated Certificate of Incorporation, the affirmative vote of the holders of ~~at least 66 2/3% percent of the total voting power~~ a majority of the outstanding Voting Stock, voting together as a single class, shall be required in order for the stockholders to adopt, alter, amend or repeal any By-Law.
- B. For so long as Nasdaq shall control, directly or indirectly, The NASDAQ Stock Market LLC, any proposed adoption, alteration, amendment, change or repeal (an “amendment”) of any By-Law shall be submitted to the Board of Directors of The NASDAQ Stock Market LLC (the “Exchange Board”), and if the Exchange Board

determines that such amendment is required, under Section 19 of the Exchange Act and the rules promulgated thereunder, to be filed with, or filed with and approved by, the Securities and Exchange Commission (the “Commission”) before such amendment may be effective, then such amendment shall not be effective until filed with, or filed with and approved by, the Commission, as the case may be.

ARTICLE NINTH

- A. Nasdaq reserves the right to amend, alter, change, or repeal any provisions contained in this Restated Certificate of Incorporation, in the manner now or hereafter prescribed by statute, and all rights conferred herein are granted subject to this reservation; provided, however, that the affirmative vote of the holders of ~~at least 66 2/3% of the voting power~~ a majority of the outstanding Voting Stock, voting together as a single class, shall be required to amend, repeal or adopt any provision inconsistent with paragraph C. of Article Fourth, Article Fifth, Article Seventh, Article Eighth or this Article Ninth; ~~provided further, however, the affirmative vote of at least 66 2/3% of the voting power of the holders of the outstanding Notes shall also be required to (i) amend paragraph C. of Article Fourth in a manner that would adversely affect the rights of the holders of the Notes thereunder without similarly affecting the rights of the holders of the Common Stock thereunder or (ii) amend this clause.~~
- B. For so long as Nasdaq shall control, directly or indirectly, The NASDAQ Stock Market LLC, any proposed amendment of any provisions contained in this Restated Certificate of Incorporation shall be submitted to the Exchange Board, and if the Exchange Board determines that such amendment is required, under Section 19 of the Exchange Act and the rules promulgated thereunder, to be filed with, or filed with and approved by, the Commission before such amendment may be effective, then such amendment shall not be filed with the Secretary of State of the State of Delaware until filed with, or filed with and approved by, the Commission, as the case may be.

ARTICLE TENTH

Nasdaq shall have perpetual existence.

ARTICLE ELEVENTH

In light of the unique nature of Nasdaq and its subsidiaries, including the status of The NASDAQ Stock Market LLC as a self regulatory organization, the Board of Directors, when evaluating (A) any tender or exchange offer or invitation for tenders or exchanges, or proposal to make a tender or exchange offer or request or invitation for tenders or exchanges, by another party, for any equity security of Nasdaq, (B) any proposal or offer by another party to (1) merge or consolidate Nasdaq or any subsidiary with another corporation or other entity, (2) purchase or otherwise acquire all or a substantial portion of the properties or assets of Nasdaq or any subsidiary, or sell or otherwise dispose of to Nasdaq or any subsidiary all or a substantial portion of the properties or assets of such other party, or (3) liquidate, dissolve,
